

Acknowledgments

We would like to extend our gratitude to everyone who contributed data in the development of this year's San Antonio Health Profiles. The U.S. Census Department, the Texas Education Agency, the Department of State Health Services, the Texas Department of Protective and Regulatory Services, Bexar County Juvenile Probation, and SAPD provided invaluable assistance through the data they made available.

I would like to thank Roger Sanchez, Cara Hausler and Walter Widish for providing data on Reportable Communicable Diseases, Vaccine Preventable Diseases, Sexually Transmitted Diseases and for Immunizations Rates. I would like to thank Pamela R. Wood, MD for providing data on pediatric asthma inpatient admission and Bryan Alsip, MD for reviewing the Health Profiles documents. We are also grateful for the support and endorsement extended by the Bexar County Medical Society to this year's report.

We appreciate the input and suggestions provided by residents in the Occupational and Preventive Medicine residency, United States Air Force School of Aerospace Medicine (USAFSAM), Brooks City-Base, TX. The input and review of the material by Ronald Poole, MD and Stephen Hingson, MD significantly contributed to the quality of the final product.

Finally, special appreciation is extended to Sheryl L. Sculley, City Manager, Frances A. Gonzalez, Assistant City Manager, and my staff at Metro Health for their guidance and support throughout this process, last-but-not-least of whom is John Berlanga for analyzing the data in such a way that it highlights the needs of our community.

Sincerely,

Fernando A. Guerra, M.D., M.P.H.
Director of Health
