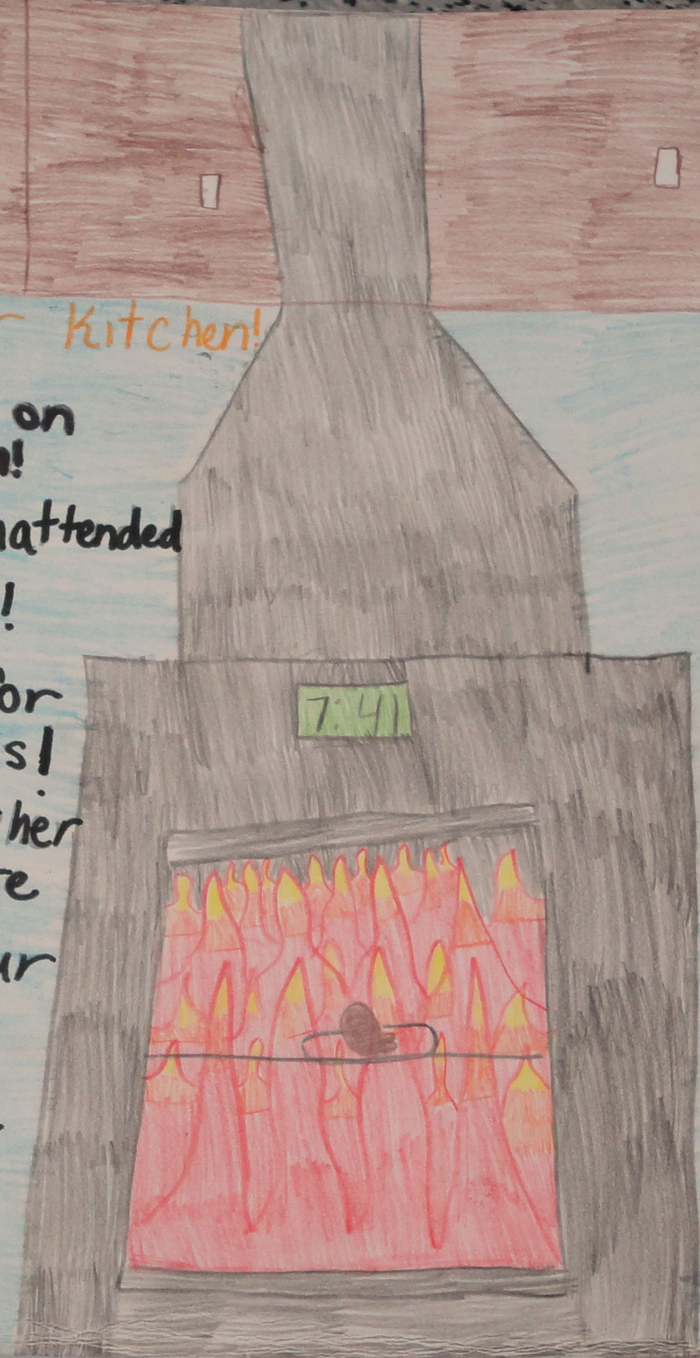
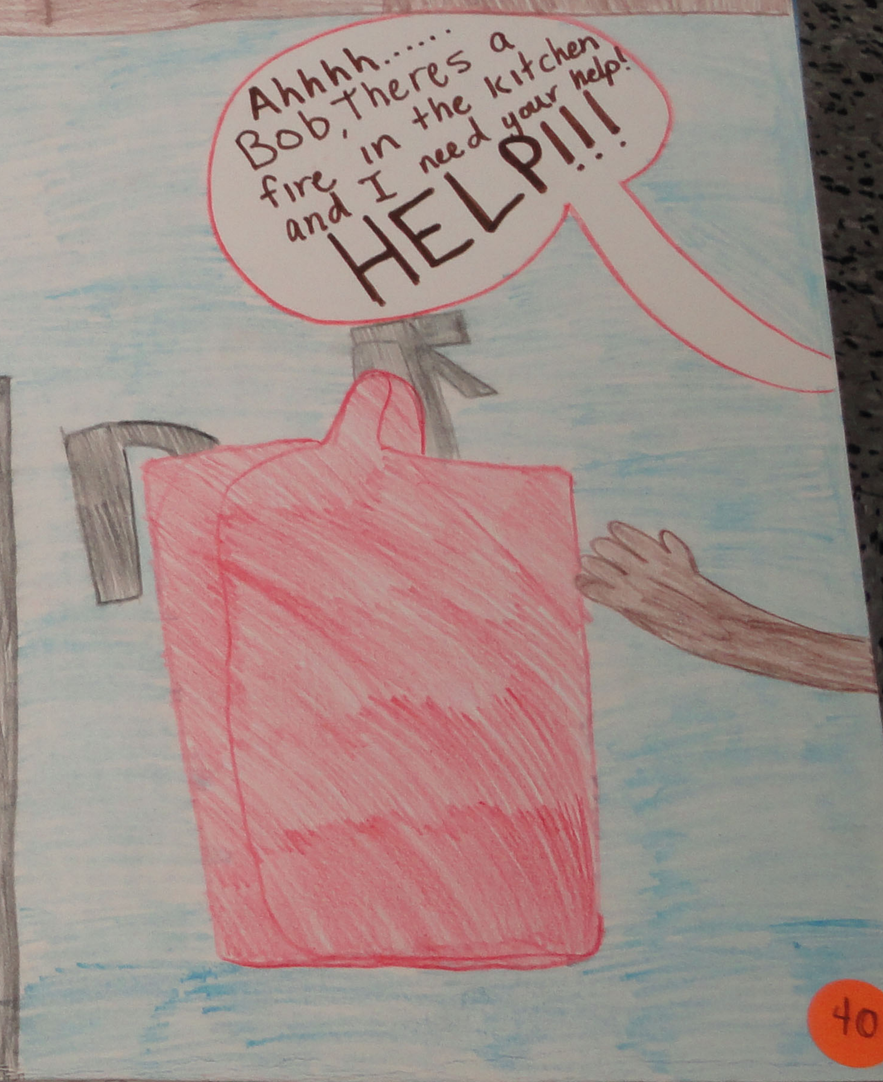
Did You Know...

Cooking fires are the most common cause of home fires and injuries?

Fire Prevention in your Kitchen!

- Never leave something on while you leave your kitchen!
- Do not leave children unattended when you leave your kitchen!
- Always cook something for ONLY the time the item says!
- Always have a fire extinguisher in your kitchen or somewhere near if there is a fire!
- If there is a big fire in your kitchen, CALL 911!
- When you cook, wear tight-fitted clothes!





Cook Safe

Make your kitchen safe from fire with these three simple rules.

- Never leave electronics near a sink or any place water can get to it.
- Don't leave the stove and/or oven on while you are out of the house.
- Always have adult supervision while using the stove and/or oven.
