

COSA PRIMELink

Release 9.0 Announcement

Date: September 1, 2015

The PRIMELink Helpdesk continues to develop and integrate the latest enhancements and fixes to improve the PRIMELink system. Release 9.0 implements upgrades to the PRIMELink system. These upgrades will be pushed the weekend of September 5th, 2015. **The system will be unavailable September 5th through September 6th.**

Upgrades and changes to the PRIMELink system include the following:

- **Browser Neutrality:** Users will be able to access PRIMELink using Internet Explorer, Google Chrome, Safari, and Firefox. See the Release Notes on clearing cache and compatibility mode for Internet Explorer.
- **New PRIMELink URL:** Use the following website to log into PRIMELink: <https://cosaprimelink-unifier.oracleindustry.com>. Recommend users bookmark or add the link to favorites.
- **New PRIMELink password:** Primavera Unifier will send out an email on September 7th with your new password. Your username will remain the same.
- **New navigation and layout:** The PRIMELink system will have a search bar to find projects & on-call contracts and allows users to add additional tabs for shortcuts.

The Release Notes file is attached. If you have any questions or concerns, please contact the PRIMELink Helpdesk at (210) 207-2019 or primelink@sanantonio.gov.
