

Audit of the Information Technology Services Department Network Security Audit

Report Issued: November 2, 2015

The objective of this audit was to determine if controls over the City's network security environment are adequate.

The audit scope covered the City's network and related security from January 2014 to April 2015. We performed testing from April 2015 to July 2015. To accomplish our audit objective we conducted interviews, made observations, analyzed security settings, and compared results to security best practices.
