Councilmember Gonzales asked of the potential health risks of the Depo Provera Shot. Dr. Schlenker stated that the program was targeted to At-Risk Females that would be adversely affected by having a child. Dr. Schlenker stated that they targeted High-Risk Populations and worked with the University Health System to identify those in need of the program. He added that various options were discussed to include abstinence.

- B. Volunteer Income Tax Assistance Program
- C. 7th Annual City Manager's Step Up To Wellness 5K Run/Walk

A. Mrs. Sculley reported that on January 3, 2014, the San Antonio Police Department implemented the Police Allocation Resource Model (PRAM) within the Department. She stated that the prior personnel deployment model was developed in the late 1980's. She noted that the model was developed in partnership with the Department's Command Staff, Strategic Intelligence and Analytics Office, Development Services Department, Dr. Corey Sparks with the Demography Department of UTSA, Representatives from each of the Six Service Areas, and the San Antonio Police Officers Association. She indicated that the new deployment model would better balance the demands of the service areas with the existing personnel, as well as lower response times and improve officer safety by "right sizing" service areas and having more officers available during peak call periods. She mentioned that the service areas were adjusted to meet current demands and that the staffing for the T-Shift which operates 5 pm to 3 am was increased from 226 officers to 299 officers to meet service demands. She thanked everyone involved in the planning and implementation of the new model and stated that she looked forward to continued success.

B. Mrs. Sculley reported that the 2014 VITA Program Season kicked off on January 22, 2014 and would run through April 15, 2014. She stated that the VITA Program was an Internal Revenue Service (IRS) Sponsored Program that provided free Income Tax Return Preparation Assistance to taxpayers earning up to \$60,000. She mentioned that VITA San Antonio consisted of a coalition of more than 30 organizations including the Department of Human Services, IRS, United Way, Catholic Charities, Financial Institutions, and Local Businesses. She indicated that the goal of the VITA Program was to increase awareness of Federal Tax Credits to low and moderate income taxpayers, such as the Earned Income Tax Credit, Child Tax Credit, and Child Care Tax Credit. She stated that the Department of Human Services operates 16 of the 20 VITA sites across the community. In addition, two mobile teams travel to assist taxpayers. She added that this year, the program would offer SaveUSA for eligible taxpayers to enroll in a matched savings account during the tax preparation process. She explained that through SaveUSA, participants received a 50 percent match, up to \$500, if they deposited at least \$200 of their Tax Refund into a SaveUSA Account and maintained the initial deposit for one year.

C. Mrs. Sculley reported that the City Manager's 5K would again take place at SeaWorld on Saturday, March 1, 2014. She stated that the event was introduced seven years ago as a way for City of San Antonio Employees to join together for a family-oriented fitness event. She noted that as a result of the City's focus on wellness, the City Manager's 5K was expanded to the entire community last year. She mentioned that the race had grown from 561 participants in its

first year to more than 2,000 last year and was excited about the great amount of participation. She stated that there was no fee for City Employees and encouraged everyone to attend.
