Pre-K 4 SA presents:

STEAM through Play for Pre-K & K (Science, Technology, Engineering, Art and Math)

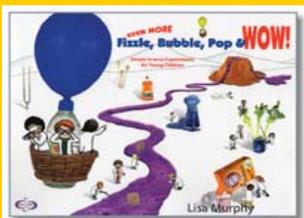

June 16-17, 2014, 8:30-3:30,

Pre-K 4 SA South Education Center, 7031 South New Braunfels, 78223

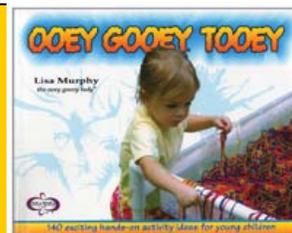

Lisa Murphy, The Ooey, Gooney Lady *a silly name – a serious message*

Often our own experience has led us to think that science is hard, difficult and complicated. This workshop will reassure you that you do not need a degree in biology or chemistry to have an engaging science program in your classroom as Lisa demonstrates 6 tables of age-appropriate science activities for young children.

Participants will be invited to come up on stage and play with the experiences at the end of the demonstration.

Participants will receive two of
Lisa Murphy's books: *Even More
Fizzle, Bubble, Pop & WOW!* &
Ooey, Gooney, Tooley

Christina Farrell, Wolf Trap Institute for Early Learning through the Arts

Discover how to take a more active role in the dramatic play scenarios in your early childhood classroom! During this highly interactive workshop, participants will learn how to tap young children's love of imaginative play to spark meaningful explorations of STEM (Science, Technology, Engineering, Math) topics by using teacher-in-role techniques. Practitioners will identify simple strategies for assuming dramatic play roles, adapting informational texts into dramatic scenarios and asking rich, open-ended questions that will empower children to actively apply critical thinking skills and evaluate their learning.

Two-day academy details:

- Free to all Pre-K and Kindergarten teachers in the City of San Antonio
- Working lunch will be provided.
- Register at www.sanantonio.gov/PreK/PD
- Follow-up professional development is available through Pre-K 4 SA Professional Development and Coaching staff
