

# Immunization Rates Report

**When to use:** When you would like to know which percentage of your patients have received the correct number of vaccine doses by a certain age.

**Who should use:** Direct Entry or HL7 Users; Office Managers; Supervisors

**Notes:**

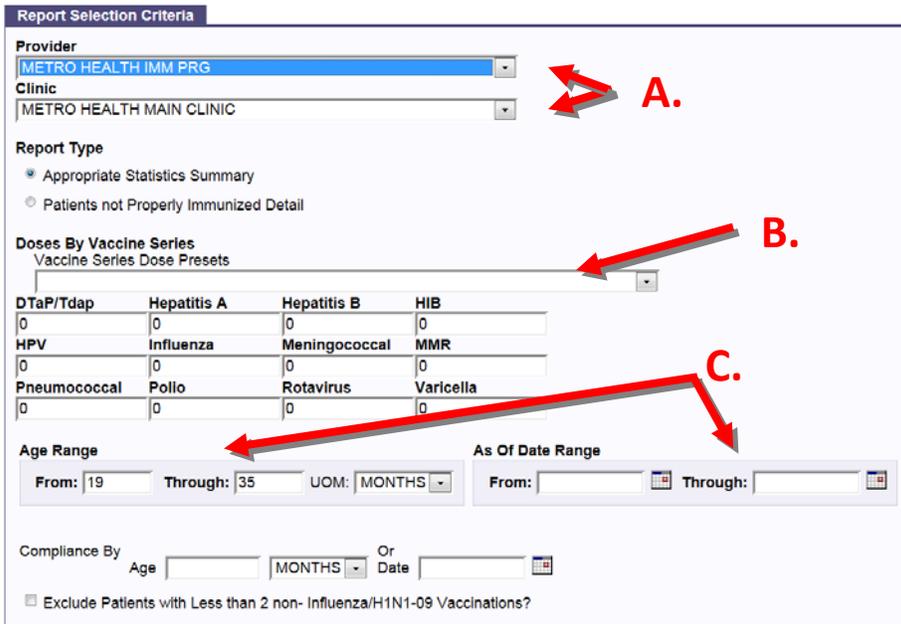

- ◆ This report will only be accurate if you are entering all of your patients' vaccine data, including their history.
- ◆ If you don't have access to run reports then contact your SAIRS mentor.

Provider: METRO HEALTH IMM PRG (A)

Clinic: METRO HEALTH MAIN CLINIC (A)

Report Type:
 

- Appropriate Statistics Summary
- Patients not Properly Immunized Detail (B)

Doses By Vaccine Series: Vaccine Series Dose Presets (B)

|              |             |               |           |
|--------------|-------------|---------------|-----------|
| DTaP/Tdap    | Hepatitis A | Hepatitis B   | HIB       |
| 0            | 0           | 0             | 0         |
| HPV          | Influenza   | Meningococcal | MMR       |
| 0            | 0           | 0             | 0         |
| Pneumococcal | Polio       | Rotavirus     | Varicella |
| 0            | 0           | 0             | 0         |

Age Range: From: 19 Through: 35 UOM: MONTHS (C)

As Of Date Range: From: Through:

Compliance By: Age MONTHS Or Date

Exclude Patients with Less than 2 non- Influenza/H1N1-09 Vaccinations?

**Step 5:**

Click **Run Report**.

Run Report Cancel

| IF   | THEN   |
|--|--|
| You would like a list of the patients who are not completely up to date. | Choose the <b>Patients not Properly Immunized Detail</b> bullet under <b>Report Type</b> .                           |
| The report shows no results.   | You may not have patients that associate to your clinic when you enter vaccines for them.                            |
| The report never finishes loading or you get an error message.           | Your patient list may be so large that the report “timed out” and you may request your report via your SAIRS mentor. |

<THE END>
