Important Information regarding Metro Health Business Reply Mailing Envelopes

Metro Health requests that all providers ***immediately discontinue*** use of the Business Reply Mailing envelopes shown below. These are the postage paid envelopes that your office uses to return your weekly consent forms to the Metro Health.

Due to mandatory mailing code updates to prepaid envelopes, the USPS has asked Metro Health to discontinue the use of our current supply of envelopes. To avoid confusion we ask that you:

- Please keep all completed consent forms together in a stack, so they will be ready to submit once you receive replacement envelopes from Metro Health.
- Please shred, recycle, or properly dispose of all on hand mailing envelopes.

We apologize in advance for any inconvenience this may cause your office. Please feel free to contact Kenya Wilson, VFC Program Coordinator at (210) 207-3974 regarding questions to the information presented. For questions regarding vaccine ordering, please contact Anthony Johnson, Vaccine Management at (210) 207-4015.

Thank you for your continued efforts to protect our community!
