

Animal Care Services

Post Walkthrough Report

Please help us help these pets listed below on the Post Walk-Through URGENTS report. The following pets have been with us for some time...and while we would love to provide every pet in our kennel even more extra time for placement, we still have an average of 100 pets coming in...everyday! That means things can get a little crowded around here.

We desperately need your help to continue to provide humane housing for all the animals in our care. If you are able to directly adopt, foster or rescue any of the animals on the Post Walk-Through URGENTS report, please contact ACS immediately so that a "hold" can be placed on the pet (in accordance with ACS rescue/foster [policies](#)).

Please Note: Because of round the clock intake and humane housing requirements at the shelter, ACS may be required to euthanize without any additional notice other than this report (which is updated hourly). We urge you to **please contact ACS immediately if you can directly help any of the pets on this report** OR any of the other wonderful pets we have [here](#) at Animal Care Services.

Please remember that while rescuing/fostering a pet from the Post Walk-Through URGENTS report could save the life of that pet, adopting, fostering or rescuing ANY pet from your local shelter can also free up necessary kennel space that will let ACS give extra time to some of our harder to adopt animals. The lifesaving work in our community continues with YOU. Thank you for partnering with Animal Care Services and thank you for helping us save lives...one pet at a time.

If the following report is blank, no pets have been identified at this time; however, we still need your help. Please visit our URGENT pets page to view other pets in need.
