San Antonio, Texas 78204

***** BIO *****

WORK HISTORY: Mr. Solis's experience consists of 21 years license and hands on experience in the mechanical trade in Commercial/Residential County prison and jails and numerous large scale commercial jobs in town and out of town. He currently holds a City of San Antonio Master License.

PERSONAL NOTE: I have always told my helpers in the trade back in the day's, "I might not be the best sheet metal mechanic, but I aint seen better!" During my course of experience as a Sr. Mechanical Inspector now going on 10 years working for this wonderful City Of San Antonio, I do not mind taking the time to explain the mechanical codes and energy conservation codes to all mechanical contracting companies large and small and their employees. I also strive to dedicate my self to my job 110 percent each and every day. Now, I might not be the best mechanical inspector, but "I aint seen better!"

PERSONAL GOALS: I am currently striving to put my children through college and also look forward to a time when I will move up into a Chief Mechanical Inspector's position either for this municipality or maybe even another one whose size is just as comparable to this one and just as challenging.
