For the purpose of this report, SAMHD used criteria based on population to analyze the data, starting with Hispanic, then Non-Hispanic White, and then African American. This means a Hispanic-Asian mother, for example, would be counted as Hispanic.

The State of Texas allows people to report more than one race, making it difficult at times to analyze the data. The above data can not be summed it's possible to have a mother who is Non-Hispanic White, and African American.
