

CITY OF SAN ANTONIO
SAN ANTONIO AIRPORT SYSTEM

April 6, 2012

All Aviation Department Employees

**RE: San Antonio International Airport & Stinson Municipal Airport
Soil Management Plan**

This Soil Management Plan has been designed to assist SAT and SSF with:

- Cradle to grave liability for contaminated soil;
- Proper use and reuse of soil generated during airport construction projects; and
- Compliance with applicable Federal and State laws and regulations.

The attached Soil Management Plan is hereby adopted as the official policy of the Aviation Department and shall be implemented in all aspects of managing and operating the Airport. I have tasked the Environmental Stewardship Division with encouraging all Divisions to implement this policy.

Issued this 19th Day of April 2012

Frank Miller
Aviation Director

Loyce Clark, Assistant Director 
Steven Southers, Environmental Stewardship Manager

INTERDEPARTMENTAL CORRESPONDENCE SHEET

TO: Mr. Frank R. Miller, Aviation Department Director

FROM: Loyce Clark, Assistant Director of Aviation
8/28 Steven Southers, Environmental Stewardship Division Manager
Paul Scheel, Sr. Environmental Protection Officer

COPIES TO: File

SUBJECT: Soil Management Plan (SMP) for SAT & SSF

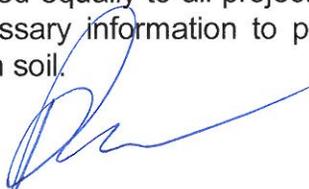

DATE: April 06, 2012

Mr. Miller:

The attached SAT and SSF Soil Management Plan was prepared to assist the Aviation Department with airport soil issues. The issues addressed in this plan include:

- Cradle to grave liability for contaminated media (soil);
- Guidelines to identify potential soil contamination;
- Proper use and reuse procedures for soil generated during airport construction projects; and
- Compliance with applicable laws and regulation.

By implementing this plan the airport will have a guideline for all soil issues that can be applied equally to all projects in the future. This plan will also insure that the airport has all necessary information to prevent contaminated soil from leaving or cross contaminating clean soil.

Paul Scheel
Sr. Environmental Protection Officer
