

American Airlines Expands Service to Miami

October 2, 2014 (San Antonio, TX)— American Airlines announced it is expanding service from San Antonio (SAT) to Miami International Airport (MIA)- one of its key hubs that will provide more access for customers across its growing global network. The service to Miami will operate daily, beginning March 5th, 2015.

“This new nonstop service to Miami gives San Antonio residents more opportunities to connect to American’s vast network in Latin America,” said San Antonio Mayor Ivy R. Taylor, “Moreover, the new flight confirms the airline’s confidence in the San Antonio market and solidifies our long partnership with American Airlines.”

The carrier will use Boeing 737- 800 aircraft for its daily round-trip flight. The flight will feature an early-morning departure on the Miami-bound flight and a late-evening return. Such schedules maximize connecting options for American passengers connecting through Miami.

###

With more than 8 million passengers annually, the San Antonio International Airport (SAT) contributes more than \$5 billion to the region’s economy. The Gateway for South Texas SAT offers nonstop service to 34 destinations and, in 2012, was named the nation’s 10th largest gateway to Mexico. The San Antonio Airport System also includes Stinson Municipal Airport (SSF), the 2nd oldest continuously operating airport. A department of the City of San Antonio, the system is funded by an enterprise fund supported by user and tenant fees.
