Section 1 – Overview

1.1 Summary

The PRIMELink Helpdesk continues to develop and integrate the latest enhancements and fixes to provide improved use of the PRIMELink system. This document provides a brief overview regarding the upcoming upgrade that takes effect September 7th, 2015.

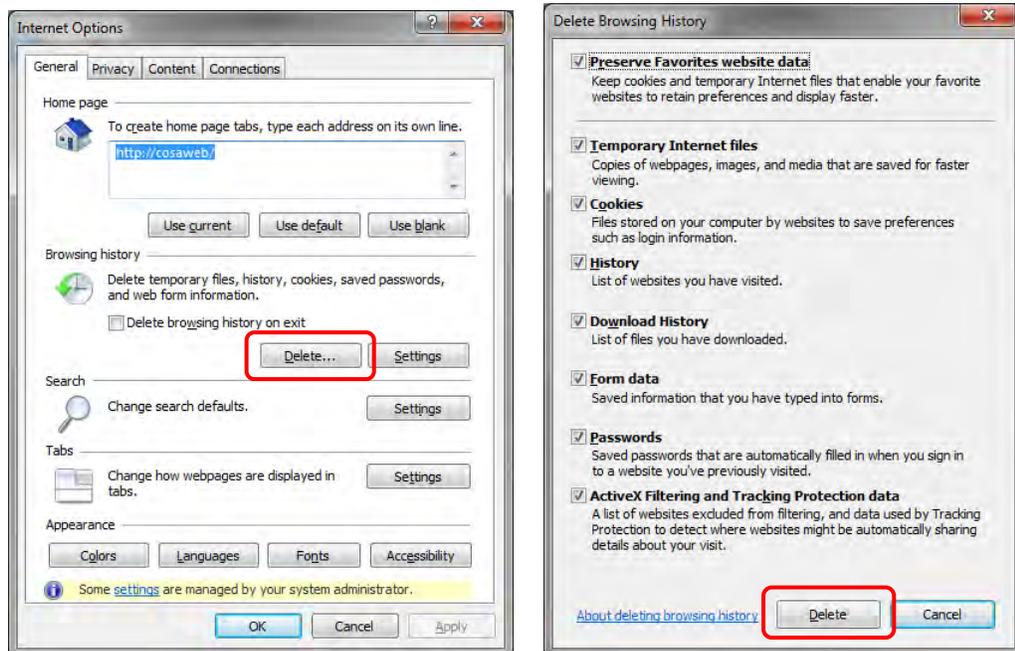

Section 2 – Browser Neutrality

2.1 The PRIMELink system will work with the following browsers: Internet Explorer, Google Chrome, Apple Safari and Mozilla Firefox. Google Chrome has seen the most positive feedback.

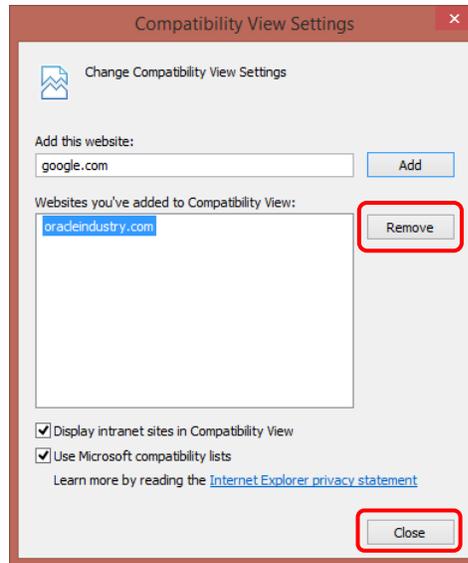

2.2 Users should clear their browser cache before logging. See the following steps:

- Ensure all browser windows are closed
- Go to Start > Control Panel
- Click Internet Options
- On the Internet Properties window, click on General Tab
- Click “Delete...” button under Browsing history
- Check all boxes and click “Delete” button
- Click “Ok”

2.3 Users using Internet Explorer version 10 or 11 will need to remove “oracleindustry.com” from Compatibility View Settings. See the following the steps:

- In Internet Explorer, go to Tools > Compatibility View Settings
- Select “oracleindustry.com” from Compatibility View list
- Click Remove
- Click Close

Section 3 – New PRIMELink URL

3.1 There is a new URL to access PRIMELink: <https://cosaprimelink-unifier.oracleindustry.com>. We recommend you bookmark or add the link to favorites. Users logging in using the old link will get the following error message.

3.2 Once logged into PRIMELink, users will have to choose an application. The Unifier link will launch the PRIMELink system. OIM Identity allows users to change their user information, password, challenge questions, and proxies.

Welcome to 15.1 Applications

- Unifier
- Unifier BG/Int
- OBI
- Cloud Admin Tool
- OIM Identity

Click Unifier to open PRIMELink

Click OIM Identity to change user information such as Name, Email, Password, Challenge Questions & Proxies

Section 4 – New PRIMELink Password

4.1 The upgrade will require users to change their password to the PRIMELink system. Primavera Unifier will send out an email with your temporary password. Below is the sample password reset notification email.

----- Original Message -----

Subject: CUSTOMER NAME: Primavera Unifier Password Reset Notification

Date: Sun, 16 Nov 2014 22:02:52 +0000 (GMT)

From: Primavera Unifier <Primavera_Unifier_Notification@oracle.com>

To: Bill No Name

This is a system-generated email message. Do not reply to Sender.

Your Oracle Primavera Unifier Login Password has been reset as part of the Oracle Identity Manager (OIM) implementation that occurred during the recent CUSTOMER NAME Unifier Upgrade to Version 15.1.x.x.

Use the following system-generated password to log in: test123

Login to your Unifier environment ([PROD URL HERE](#)) using your current Unifier username and this new password.

You will be prompted to change your password upon this first Unifier login. Oracle Identity Manager is a user provisioning and administration solution, which automates the process of adding, updating, and deleting user accounts from applications and directories. User account management will now be handled in OIM and not within Unifier. This includes changing your password in the future and setting security questions for your account. Contact your site administrators for more details.

Before logging into the PRIMELink system, you will be prompted to change your password and setup challenge questions in the event you forget your password.

Password Management

All fields are required in this section

* Old Password

* New Password ⓘ

* Re-Type New Password

Register challenge questions for your account

* Question1 What is your mother's maiden name? * Answer1 Smith

* Question2 What is the city of your birth? * Answer2 Dallas

* Question3 What is your favorite color? * Answer3 Blue

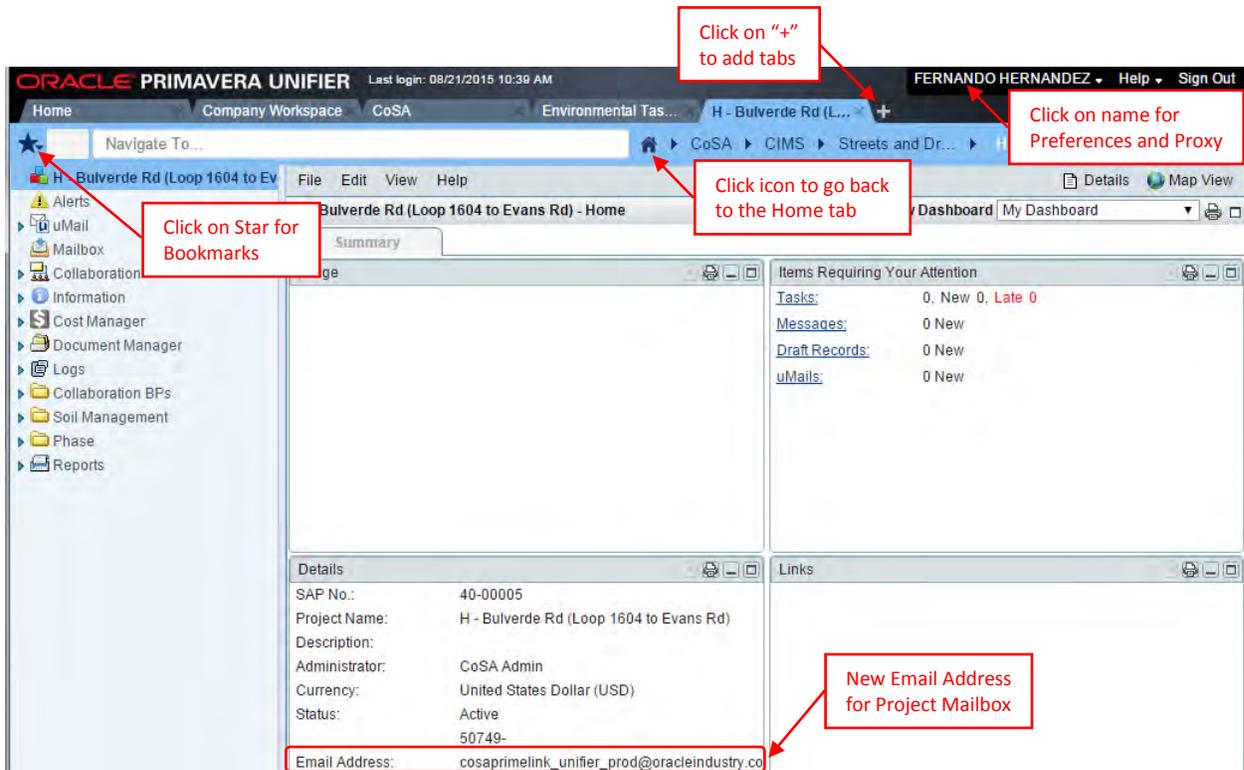

Section 5 – Navigation and Layout

The PRIMELink system has a search bar to navigate to your projects and on-call contracts. To use this function, enter a project or contract name in the “Navigate To...” field. Users can still drill down by using CoSA tab.

RELEASE 9.0 NOTES

PRIMELink will have some minor changes to the layout. Users will have the same three tabs (Home, Company Workspace and CoSA); however, additional tabs can be added to include projects or on-call contracts. See below for additional changes.

Section 6 – References

6.1 Questions & Assistance Contact

6.2 Additional documentation will be provided by email in the future and also available on our website.
