* * * *

Councilman Perez made a motion to approve the proposed Ordinance. Councilwoman Moorhouse seconded the motion.

Mr. Florencio Pena, Director of Development Services Department, gave a powerpoint presentation regarding the Advertising Shelter Agreement between the City and VIA Metropolitan Transit, a copy of which is on file with the papers of this meeting. Mr. Pena discussed the background, summary of design elements, conclusion, summary and recommendation.

Mr. Kenneth Gindy, Attorney with Cemusa, submitted a proposal for the bus shelters and distributed architectural models of the proposed design to Council members for their review. Mr. Gindy described the construction design and materials, and spoke to the advantages of this design under South Texas weather conditions.

Councilman Carpenter expressed his satisfaction to see this agreement come to fruition.

In response to Councilman Carpenter’s inquiry about costs, Mr. Gindy stated that each shelter cost approximately $6,000 to $10,000 each.

Councilwoman Moorhouse spoke regarding her preference of increasing bench-seating capacity to three-foot lengths, and still be in compliance with the American Disability Act requirements. Mr. Gindy responded that a design has been developed for this purpose. Mr. Gindy gave his commitment to providing extra seating space on the bus shelter benches.

In response to Councilman Schubert’s inquiry about the floor levels, Mr. Gindy spoke to the dimensions and design of the shelter, which would provide better protection to users.

Mr. Pena came forward to discuss environmental benefits.
Councilman Schubert expressed his concern about people using the shelter and the protection afforded them with this design under adverse weather conditions.

Mr. Gindy responded that a meeting was held in District 4 during which time, bus riders were canvassed about the proposed design, and feedback was positive.

In response to Mr. Schubert, Mr. Pena explained that the Council will be deciding on the following: the Historic Design and Review Commissions' recommendation on the design; Ms. Moorhouse's motion to extend the bench design; to select the glass as an alternative, and then to allow the VIA sign to have double sides. Mr. Pena stated any changes would be incorporated into the final design and then they would move forward on the final sites.

Discussion continued with Mr. Pena elaborating on the construction design.

In response to Councilman Perez, Mr. Pena stated the etched glass is a new piece of glass that would be replaced if the shelters are vandalized.

Councilman Perez also expressed his enthusiasm about approving the contract today and seeing those shelters built throughout the community.

In response to Councilman Perez' question regarding a time line and when the first shelter would be completed, Mr. John Milam, VIA General Manager, responded that if the design would be approved today, a contract would be issued within 90 days, and the first 200 shelters would be built within the first six months, with the other 200 shelters built within the year.
