**2003-07**

The Clerk read a proposed ordinance to approve or reject the tentative collective bargaining agreement approved by San Antonio Police Officers’ Association by the vote of its members on January 7, 8, and 9, 2003.

Councilwoman Moorhouse made a motion to approve the proposed Ordinance. Councilman Carpenter seconded the motion.

Mr. Eric Walsh, Assistant City Manager, narrated a slide presentation regarding the San Antonio Police Officers Association Collective Bargaining Agreement, a copy of which is on file with the papers of this meeting. He described the January 30 Council Resolution, and the negotiations that took place. He also described the current proposed contract, and indicated that staff did not recommend approval. He then described what would happen if the collective agreement was rejected.

The following citizen(s) appeared to speak:
Mr. Rene Rodriguez, San Antonio Police Officers Association, spoke in favor of the agreement that was initially proposed. He spoke against the current contract being negotiated, and stated that it was not acceptable. He commented that a price tag could not be placed on the work that police officers do each day. He spoke to the dangers of the profession, and how it has never been harder to be a police officer. He expounded on how the citizens of the City have always backed the men and women in blue. He acknowledged that it was a rewarding job, and that they would continue to serve vigorously despite the outcome of today.

Mr. Ron De Lord, San Antonio Police Officers Association, stated that it was in everyone’s best interest that the parties receive a good faith agreement. He spoke to the 67 individuals who sought the lawsuit, and not the San Antonio Police Officers Association. He confirmed that the Association returned to the City staff after the lawsuit was filed, and both agreed that the contract would still stand. He stated the damages of any lawsuit would be miniscule. He spoke also to the Union trying to get this issue settled, and further spoke to the officers who have been killed and injured on the job. He expressed to the Council that this was a good contract that was fair to the police and to the citizens.

Mr. David Evans, San Antonio Police Officer, thanked all those who visited him while he was hospitalized. He stated society was changing, and things needed to change along with it. He gave a brief history of his career with the San Antonio Police Department, and detailed incidents that he has encountered, and damages that he has sustained. He spoke to his involvement regarding the incident at Denny’s Restaurant, and how he would go back to work and proudly serve this City regardless of the dangers. He urged Council to consider this contract and approve it.

Mr. Clifford Morgan, San Antonio Police Officer, stated that he loved his job. He spoke to the pride and professionalism that police officers try to bring to their job. He described his duties, and some of the things that he has seen other police officers perform, such as collecting money for the Battered Women’s Shelter. He stated that Police Officers go above and beyond the call of duty. He urged the Council not to deny the 3% raise, especially since it wasn’t an exuberant amount of money.

Mr. Warren Gilstrap, San Antonio Police officer, said that he was proud to be a member of the San Antonio Police Department. He then gave his 2 minutes to Mr. Alex Ortiz.

Mr. Alejandro “Alex” Ortiz, San Antonio Police Officer, spoke in favor of the agreement. He stated that nine members of his family were in law enforcement. He then spoke of an incident in 1977, and how he had to take time off because of it. However, he noted that he was soon back in uniform very willing to serve.

2003-07
February 20, 2003 15 of 29
(At this point, Mayor Garza was obliged to leave the meeting. Mayor Pro Tem Conner presided.)

Mr. Nazarite Ruben Flores Perez, 627 Hearne Avenue, stated that the police force has done a good job. He spoke to the work of City Employees, and urged management to put them on the priority list.

(Mayor Garza returned to the meeting and presided.)

Mr. Fred Balmus, San Antonio Police Officer, urged Council to accept the agreement. He stated that the terms of contract were fair and reasonable. Although the public might say that they are greedy, he hoped that they would understand the work that the officers do. He urged the Council to support this agreement.

Mr. Lawrence Doyle, San Antonio Police Department, stated that recent statements in the local press have resulted in a negative impact on the current negotiations. He stated that the lawsuit was about correcting overtime under the Fair Labor Standards Act. He spoke of a previous lawsuit and how it corrected paid overtime, and further spoke to the media’s attempts to blame officers for trying to correct pay problems. He stated that the City team rejected attempts to work out a resolution. He urged Council to accept the contract, and stated that their actions would start a course to correct the mistakes from the past. He noted that police officers have worked too hard and too long, and that they deserved the pay raise being negotiated.

* * * *

Mayor Garza stated that he’d like to see the agreement approved, and how every member of Council wants the same. He thanked Mr. Rene Rodriguez for his leadership, and spoke to how difficult it was to be a president of an organization. He spoke to how collective bargaining was a tool that many police forces would love to have, and noted that some may question why the City even has this. He stated that this is a process that can work, and confirmed that it has led to where they are today. He described that it is a healthy process to have for the City. He acknowledged the duties of the police officers and marveled at how they put their lives on the line everyday. He praised Police Officer David Evans for his courage. He acknowledged that if perhaps the agreement was today and the lawsuit was next week, it could have had a different outcome. He stated that he could not sit as Mayor today and vote on this agreement. He noted that it was the right of the 67 officers to file law suit, but as they look at all the different scenarios from a potential lawsuit, the Council had to listen to their attorneys and outside counsel who advised them what their legal standing was, and have to look at the worse case scenario.
for one lawsuit. He confirmed that he would not be voting for approval of the agreement today. He stated there were a lot of questions that the public has, and he stated that perhaps they could come up with an even better agreement, but given the circumstances, he could not support this agreement. However he expressed his desire to resolve this matter.

Councilman Sanders spoke to the unfortunate situation of this agreement. He stated that it was a matter of perspective, and collectively, they are given information from the staff's perspective. He spoke to the misrepresentative nature of the newspaper. He described how unfortunate it was that the City could not come together to make this happen, because police officers have served the City well. He spoke to the new projected budget shortfall, and stated that the numbers could change. He voiced his ongoing respect of what police work is like, and his appreciation for what they do.

Councilman Castro stated that he looked forward to the Council session where they can pass a police contract. He spoke of the importance of making sure that the City continues to have a well-trained law enforcement division. He spoke to what has been negotiated on a tentative agreement, and stressed the importance of the word "tentative". He stated that this adjective mattered very much, because it still had to go through a process.

Discussion ensued between Councilman Castro and Mr. DeLord regarding the 180-day rule, and the police chief disciplining officers with the exception of criminal acts. They discussed whether this item was brought to the negotiating table, and Mr. DeLord concluded that this rule was more reflective on petty acts committed by police officers.

Councilman Castro stated that he looked forward to entering a contract that would compensate San Antonio Police Officers well for their excellent work, while also protecting the best interests of the citizens of San Antonio.

Councilman Martin thanked Mr. Rene Rodriguez and Mr. Ron DeLord for their efforts on this contract.

In response to Councilman Martin's question as to whether this contract was something the Council would've been asked to approve not withstanding the lawsuit, Mr. Walsh replied yes, and further acknowledged that it was something that the City did not know was pending prior to the initial contract being negotiated.

Discussion ensued between Councilman Martin and Mr. Walsh regarding the City's compliance with pay issues, and what would happen if the contract is voted down.
Councilman Martin spoke to the work that officers do, and their large involvement with the community. With respect to protection, he acknowledged that there wasn’t one meeting that he had been to where this wasn’t the number one item, and it was a constant issue for many of the Councilmembers. He spoke to the City not being at risk in his opinion, and stated that he didn’t believe the entire police force should be penalized for the action of 67 officers who filed the lawsuit. He expressed his thoughts regarding the City’s need to negotiate the contract being discussed, and stated that it was a matter of principle and the right thing to do. He confirmed that he would be supporting the agreement.

Councilman Perez acknowledged the issues being presented to the Council regarding the personal stories of the police officers who spoke today. He noted that the job they carry out is regularly appreciated and often taken for granted. He stated that as Councilmembers of the City, that they were sworn to carry out policies that would affect the health, safety and welfare of the community. He noted that this has included decisions regarding the reassignment of employees, cutting back trash and a number of services that make this community click. Under this contract, he acknowledged that this made the police force the only entity to receive a pay raise, and not a single other employee would receive a pay raise. He spoke to the City walking into another deficit in the coming year. He spoke also to the lawsuit, and how it was only 67 police officers involved now, but there was the possibility of the number increasing up to 1800 because it was a class action suit. He stated that the City was in an indefensible position, and he spoke to the importance of looking at everything comprehensively. He voiced that the Council has to struggle with their conscience on difficult decisions, and the right thing to do on this issue was not to approve the contract, not because he didn’t believe in the work they did, but it came down to the balance of health, safety and welfare of the community.

Councilman Schubert concurred with Councilman Perez, and expressed his disagreement regarding Mr. DeLord’s perspective that it would be four or five years before the lawsuit was resolved. He stated that the Council had to be good stewards of the taxpayers’ dollars, and that they clearly cannot do this with this contract. He urged the police officers to put themselves in the taxpayer’s position. He stated that the issue wasn’t that he didn’t believe that the officers are entitled to a pay increase, but it was a small piece that could add up to a lot of money. He expressed his sadness regarding the City not being able to come to an agreement. He then acknowledged the stories that he heard from the officers regarding the difficulties of their job. He noted that he has seen firsthand the pressures put upon them on a daily basis. He stated that it was important to make sure that the Council had certainty on how tax dollars are spent.
