2003-23  CITY MANAGER’S REPORT

City Manager Terry Brechtel stated she had asked Ms. Rebecca Waldman, Director of the Department of Asset Management, to brief the Council on the “High Risk” contracts process. She added that on a monthly basis, the Council would receive a report notifying them of “high risk” contracts that were coming before them.

Ms. Waldman narrated a slide presentation on the “High Risk” Contracting Initiatives and the Bi-Weekly Contracting Report. A copy of the presentation is filed with the papers of this meeting. She provided an overview of the contracting initiative from May 2001 to the present, the Contracting Policy and Process Manual, Contract Reporting, and the Bi-Weekly Contracting Report. She outlined the City Attorney’s Office recommended six strategies to improve the contract management processes, the four fundamental contracting goals that were established, and those goals that have been achieved since May 2001. She spoke to the Contracting Policy and Process Manual as intended to provide the City staff with one single reference for contracting policy and process and to highlights in the manual. She further spoke to the high risk contracting
initiative that is determined by the four risk criteria which include dollar amount of contract, procurement method, contract complexity and community interest. She then spoke of the bi-weekly report to the City Council and Management Team that would provide comprehensive information regarding upcoming “high risk” contracting initiatives and to other information the report would contain.

Councilman Castro spoke to this being the result of a long process and was pleased that the staff was focusing on “high risk” contracts. He stated that the standardization of the Request for Proposal (RFP) process was good and he agreed with standardization with respect to the analysis that the staff undertakes. He added that once that took place, the process needed to be conveyed to the Council, and staff needed to apprise the Council of how it came to its conclusion. He added that the scoring system needed to be transparent and the Council needed to have a good sense of exactly what logic was used by the staff to score the contracts.

In response to questions by Councilman Williams, Ms. Waldman spoke to the certification process and the retention skills for the contracting officers.

In response to questions by Councilman Hall, Ms. Waldman stated that there were 30 – 40 high risk contracts out of 2,000 that are awarded annually and spoke further to the evaluation criteria.

Ms. Waldman, in response to Councilwoman Radle, provided information on the criteria used to determine the level of community interest and stated that many times staff would seek community input before undertaking an initiative or, in some case, community representatives would be asked to serve on the evaluation committee.

In response to questions by Councilman Perez, Ms. Waldman explained “high-risk” contracts further.

MS. RACHEL CYWINSKI

Ms. Rachel Cywinski, President, Highland Park Neighborhood Association, identified her neighborhood’s location. She then requested that the City Council consider rescinding all provisions in the temporary commercial sign ordinance. She stated that she learned that because the area was platted last month, it fell under the old ordinance. She noted that she did not feel that 150 trees deserved to die. (Ms. Englebert was unable to continue her presentation, so a member of the association continued to speak on her behalf.) The representative added that this issue had previously come before the Council. She spoke to the location of the neighborhood and stated that the neighbors were not anti-business or anti-development, but they felt this was all one sided. Mayor Garza stated that many properties had been grandfathered but the City was trying to work with the owners of these grandfathered properties to get them to agree to voluntarily comply with the new ordinance.

Mr. Faris Hodge, Jr., 140 Dora, read from the headlines and commented on articles related to the City of San Antonio that appeared in recent newspaper articles. He suggested that the City buy the Kress Building, tear it down and build an 8-story building to be used to provide shelter for the homeless, and wash down the sidewalks. He further suggested that the City Council integrate its staff and put the smoking ordinance on the ballot for the voters to decide. He took exception to the tool artwork that the City had recently purchased and stated his opinion that the money would have been better spent towards giving City employees a 14% raise.

Although he was not positive as to the circumstances of her death, he placed some culpability on the positioning of some light poles that obstructed the sidewalk. He presented photographs (which are filed with the papers of this meeting) of the area and further stated that the little girl would still be alive if the sidewalk had been built properly. He requested that the Council initiate action to have the problem remedied.

MR. CHARLES ENGLISH

Mr. Charles English, Jefferson Heights Association, spoke to an area of roadway in the SBC Center vicinity that was reconfigured and presented a traffic problem that needed to be corrected. He spoke to the City’s lack of action on resolving this issue. He also spoke to other problems residents of Jefferson Heights were experiencing, including homes that have utility obstructions in front of their homes. He stated that he had spoken to the utility companies but nothing had been done. Mr. English further expressed his concern at having to address the Council as an individual rather than an organization. He expressed his opinion that the Mayor should allow him additional time.
