Mr. Malcolm Matthews, Director of Parks and Recreation, noted that the city utilizes funding agreements to work with non-profit organizations and other entities to get projects done. He reiterated that the funding agreement does not provide for any construction.

The following citizens appeared to speak:

Mr. Sam Dawson, Chairman of the Board of Trustees for the Witte Museum, addressed the Council and stated that the Witte Museum is city property and that everything encompassing the museum belongs to the city. He stated that when speaking of a parking garage, it is about the restoration of over three acres of parkland, not the destruction of parkland. Mr. Dawson added that the Comprehensive Master Plan has been in place since 1979 and that the parking needs must be addressed. He noted that there will be a reduction of impervious cover in the park area once the project is complete. Mr. Dawson noted that he collected 1,100 signatures supporting the location and construction of the parking garage. He also stated that 68 trees have been identified; of which 25-30 of those trees are candidates for relocation. Lastly, Mr. Dawson stated that he was working with a group called the Tree Wise Man on the preservation and relocation of trees.

Ms. Virginia Nichols, San Antonio Conservation Society, addressed the Council and stated that when George Brackenridge donated the land to the City for it to be used as a park, he never envisioned the growth of the automobile and traffic. She stated that the Master Plan included the Witte Museum, the San Antonio Zoo, and the Children's Playground. Ms. Nichols stated that the Witte Museum Expansion needs a parking facility and urged the Council to support the item.

Ms. Betty Feldman stated that Brackenridge Park must be protected from automobiles and added that building a parking facility will save some of the parkland. She stated that the park belongs to the city, noting that all residents of San Antonio use the park. Ms. Feldman stated that building a vertical parking garage is Green and relieves the land of impervious cover.

Mr. Darryl Bird stated that as a trustee and patron of the Witte Museum, he is committed to working with the City as an environmental steward for Brackenridge Park. He stated that Brackenridge Park belongs to the citizens of San Antonio and has a need for parking. Mr. Bird stated that in 1999 the issue of parking was addressed with the public. He stated that the voters approved a parking plan which the City was now implementing.

Mr. Larry DeMartino stated that as a Landscape Architect, he disputes some of the information that was being presented. He stated that the City should not cut down one acre of wooded area to build a parking garage. He noted that it was wrong to take limited resources of parkland with dense tree cover and replace it with a building that forever removes the parkland. Mr. DeMartino added that no matter how many new trees the City plants or transplants, the parkland will be lost forever. Lastly, he stated that as other cities look to be carbon free seeking cleaner ways to grow and prosper, the City of San Antonio continues to carve up Brackenridge Park.

Mr. Jack M. Finger addressed the Council in opposition of removing trees from Brackenridge Park to build a parking garage for the Witte Museum. He stated that several Councilmembers received campaign contributions from Witte Board of Trustee Members. Mr. Finger requested that those who have received campaign contributions abstain from voting on the Witte Museum item. Mr. Finger spoke in opposition to Item 64, (PGA Golf Resort) noting that the citizens of San Antonio voted against the PGA. Mr. Finger addressed Item 12 and stated that Eight-Liners are illegal because they promote gambling and stated that it was hypocritical to sell them. Mr. Finger commented on Items 75 and 76, noting that Crime Stoppers and the Weed and Seed Programs are Police Department Programs.

Ms. Blanquilla Sullivan addressed the Council on behalf of the River Road Neighborhood Association. She spoke in opposition to the proposed parking structure at Brackenridge Park. She stated that over 100 neighborhood residents have signed petitions opposing the proposed parking structure. Ms. Sullivan stated that two separate Bond Elections resulted in \$7.5 Million for park improvements. She added that the neighborhood association negotiated with Witte Museum Officials, Elected Officials, and the San Antonio Conservation Society. She stated that the result of the compromise was to build on the site of the City Nursery, with the condition that no trees would be lost.

Ms. Marilyn Landfear addressed the Council and stated that she was speaking on behalf of the trees at Brackenridge Park which do not have a voice. She stated that she was pro-Witte and supports development; however, she was against cutting down trees to build a parking structure. Ms. Landfear stated that she was circulating petitions and asked the Council to delay the item so that the public can have input.

Mr. Christopher Green cited a fairytale with the analogy of the Witte Museum being dependant on the City of San Antonio and compared the San Antonio Museum of Art to the Witte Museum.

Mr. Maurice McDermott addressed the Council and stated that the Witte Museum was a facility that serves the entire City and the needs of all school districts in San Antonio. Mr. McDermott stated that the Witte Museum was in need of additional parking to accommodate growth.

Mr. Carroll Schubert addressed the Council and noted that he currently serves on the Witte Museum Board of Directors. He stated that improvements have been made at Brackenridge Park to vehicular traffic and parking. Mr. Schubert stated that the families that visit the park are from all Districts and are in need of a place to park that is not dangerous so they can safely access the park. He stated that the Witte Museum was in need of parking to accommodate growth. Lastly, he noted that the Board will work with the Arborist to ensure the protection of the environment.

Ms. Rosemary Leon, Trustee of the Witte Museum addressed the Council and stated that the proposed parking facility was being labeled the Witte Garage. She stated that the parking facility will be the Brackenridge Parking Facility, which will serve the San Antonio Zoo, Brackenridge Park, and the Witte Museum. Ms. Leon stated that the parking facility was vital to the future of Brackenridge Park and the Witte Museum.

Ms. Carol Canty addressed the Council and noted that she was saddened that the Witte Museum issue had become a we-against them issue. She stated that the Witte Museum has spent years trying to work every angle and include everyone. Ms. Canty added that the Witte Museum was the people's museum that entertains and educates the public. She stated that the Witte Museum was about preservation and conservation and has done its best for the City and the public.

Portions of this property are located within the "ERZD" Edwards Recharge Zone District and the "GC-1" Gateway Corridor Overlay District-1; however, the proposal does not include removing or altering the boundaries of either of these districts. Staff and Zoning Commission recommend Approval.

Mayor Hardberger recognized Mr. Jacks for his service to the City as this would be the last Council Meeting for Mr. Jacks as a city employee. Mr. John Jacks thanked the Mayor and Council and presented the proposed rezoning case.

Mayor Hardberger read a letter submitted by Major General Russell J. Czerw. He thanked Councilmembers Cibrian and McNeil for their overwhelming support. Major General Czerw expressed concern surrounding the development that threatens to degrade the Camp Bullis Training Missions. He also expressed concern about the protection of the development’s Aquifer in addition to the protection of habitat areas.

Mr. Nazirite Ruben Flores Perez opposed the proposed rezoning case. He spoke of lead and mercury on the property noting that the State of Texas does not recognize mercury as a poison. Mr. Perez stated that the area should remain a training facility due to possible property contamination.

Mr. Carroll Schubert with the Greater Chamber of Commerce addressed the Council and stated that the Chamber of Commerce supports Military Missions and was concerned with encroachment and density. Mr. Schubert also noted concern with development interfering with Training Missions at Camp Bullis.

Mr. Jack Finger opposed the proposed rezoning case. He said the previous City Council was annexing land and pouring concrete all over the north side of town. He stated that Camp Bullis was a training center for all branches of the military and added that our country was at war and that soldiers needed a place to train.

Mr. Bobby Perez, Legal Council for the Forest Crest Neighborhood Association (FCNA), spoke in opposition to the proposed rezoning case. He noted FCNA had two main concerns being density and environmental issues. Mr. Perez stated that a compromise was reached whereby the developer will remove a 106 acre tract from the proposed rezoning case. Additionally, the developer had agreed to restrictive covenants that would cap development and set out boundaries to the north and east that abut the park and abut Camp Bullis.

Ms. Marlene Richardson stated that she was a resident of District 8 and was opposed to the rezoning case primarily because the property is located over the Edward Aquifer Recharge Zone. Ms. Richardson stated that 65% impervious cover was unacceptable as over 800 acres are involved in the proposed rezoning case.

Mr. Tomas Larralde, spokesperson for Congressman Ciro Rodriguez, addressed the Council with concerns of development impeding the Training Missions at Camp Bullis. He stated that primarily Congressman Rodriguez was concerned for the Training Missions and environmental issues. Mr. Larralde asked the Council to take those factors into consideration.

Mr. Greg Stevens, Deputy to Major General Czerw, thanked Mayor Hardberger for reading General Czerw's letter into the record. He also thanked Councilmembers Cibrian and McNeil for their time spent on the issues relative to Camp Bullis.

Mr. Daniel Ortiz, Legal Counsel for the applicant, formally amended the proposed rezoning application to exclude the 106 acre tract. Secondly, he stated that the tract labeled R-1 on the existing Site Plan; the triangle tract adjacent to Camp Bullis will be limited to no more than 40 total residential units. Lastly, restrictive covenants will be executed and on file and will run with the land.

Mr. Gene Dawson Jr. representative of Thomas Enterprises, better known as The Rim, addressed the Council and stated that the development was a portion of the Martin Marietta Quarry. Mr. Dawson stated that there were three primary issues which were 1) Proximity to Camp Bullis, 2) Recharge Zone Development, and 3) Adjacent neighborhoods. Mr. Dawson stated that a portion of the property has been designated as Category 1, which means it's not limited on an impervious cover. However, he stated that Thomas Enterprises had agreed to 65% impervious cover. Mr. Dawson added that the compromise was important because the property was not grandfathered, meaning that the property could have been developed at 80% impervious cover. Mr. Dawson stated that he worked with SAWS and identified recharge features on the property and has agreed to 100-200 foot buffers around each feature. He stated that restrictive covenants are on file and will be executed as well as deed restrictions.

Councilmember Cibrian moved to approve the proposed rezoning case as presented by the applicant's Legal Counsel, Daniel Ortiz and by the applicant's Engineer, Gene Dawson Jr. Councilmember Wolff seconded the motion.

The motion prevailed by the following vote: **AYES:** McNeil, Gutierrez, Cortez, Galvan, Herrera, Rodriguez, Cibrian, Wolff, Clamp, and Mayor Hardberger. **NAY:** None. **ABSENT:** Cisneros.
