2. DISCUSSION ON POLICE POLICIES AND PROCEDURES

Item 2 was presented by Police Chief William McManus and he provided an overview of Police Policies and Procedures noting that of 710,198 calls for service, only 49 were categorized as "Use of Force" complaints. He highlighted recent improvements to the Police Department within the last 18 months which included changing the composition of the Citizens Advisory Action Board, re-instituting a training review board, expanding the training regimen, amending certain search and seizure policies, quarterly audits and statistical reviews of racial profiling data. Additionally, the Chief noted that an overnight command presence had been added, as well as an enhanced crime scene investigation process, a Domestic Violence arrest policy, and improvements to the 911 system.

Chief McManus reported that the recommended improvements included the seeking of accreditation from the Commission on Accreditation of Law Enforcement Agencies (CALEA) and reviewing the Department's low frequency-high risk policies (proposing assistance from Police Executive Research Forum (PERF) to review policies and procedures). He stated that PERF was a national membership organization of progressive police executives from law enforcement agencies dedicated to improving policing through research and organizational studies. Chief McManus outlined the proposed research plan in which PERF would review Police Department policies, provide comparisons to other cities, and ensure that SAPD procedures were in-line with national best practices in various areas including Use of Force. He noted that the anticipated review completion date was February 1, 2008 and that meetings would be held with community stakeholders before, during and after the research process.

The Mayor and City Council thanked Chief McManus for his efforts and encouraged community input throughout the PERF process. Councilmember Herrera asked staff to provide the Council with a comparison of Use of Force complaints among other major Texas cities. He added that the citizens had not wanted their tax dollars going to the San Antonio River Improvements Project which included the Museum Outreach Segment. Mr. Finger stated that the money should go toward hiring more police officers or possibly a substantial tax cut.

Mr. Jaime Martinez spoke in opposition to an outside review of the SAPD. He stated that the City should not allow an organization from outside of San Antonio to review San Antonio policies. Mr. Martinez added that the community should have input and be able to participate in reviewing SAPD’s policies and procedures. He stated that the City of San Antonio should have an independent Citizens Review Board to oversee SAPD policies and procedures.

Mr. Stewart stated that he welcomed any test of the department’s character and integrity. He noted that every Police Officer had gone through testing, training, and screening to work for the SAPD. Mr. Stewart stated that if approved, the study should include and identify which shifts and types of calls are most dangerous.
