1. CPS ENERGY BRIEFING ON A PROPOSED ORDINANCE AUTHORIZING ADJUSTMENTS TO BASE ELECTRIC AND NATURAL GAS RATES.

Mr. Steve Bartley, CPS Energy Deputy General Manager, provided background information on CPS Rates and examples of past increases. He noted that the City had purchased gas and electric systems from American Line and Traction in 1942 and that in 1974, virtually all power in Texas was generated from natural gas. Costs had increased due to the Arab oil embargo, so CPS embarked upon a substantial fuel diversification program to relieve expenses to citizens. He stated that those decisions continue to benefit San Antonio and CPS in the form of current affordable rates and high credit ratings. Mr. Bartley added that CPS planned to further diversify as newer and more efficient resources become available.

Ms. Paula Gold-Williams, CPS Energy Executive Vice President and CFO, addressed the financial portion of the proposal. She noted that in order to predict growth, they must look at more than just the economy; they must also consider customer usage, conservation, and extreme weather. She addressed CPS’s Capital Program and broke down spending of Non-Generation and Generation Expenditures. She added that the rate increase would be utilized to pay off debt and keep a balance between debt and cash flow, and presented CPS’s projected FY 2009 Budget without the proposed rate increase. Lastly, she spoke of several credit rating drivers and credit authorities, noted the importance of diversification, and stated that CPS Energy was the highest rated Municipal Electric System in the country.

Mr. Gary Cole, CPS Energy Director of Financial Management, presented that the base rate adjustment for both electric and gas was 5% for the system average. He also reviewed the rate adjustment drivers noting that CPS had $500 million in environmental upgrades planned. He reported another $96 million were planned over the next four years for conservation and energy efficiency efforts. It was noted that the two last base rate adjustments were in 1991 for electric and for gas, rate adjustments occurred in 1991 and 2006.

Ms. Norma Solis, CPS Energy Director, stated that the increase to the average residential monthly bill would equate to $5.82 or 4.33%. She reported a discount for low-income customers totaling $4.20 per month for electric and $1.60 per month for gas, and that CPS would increase contributions to programs such as WARM, REAP, and LIHEAP. She referenced the bar graphs depicting CPS Energy rates compared to other Texas Cities as well as comparisons to the ten largest American Cities which showed that CPS had the lowest rates, even with the proposed increases. Mr. Bartley concluded by stating that...
CPS understood that having low rates and performing well were not justification for a rate increase, but hoped they had provided enough information to substantiate their request.

Mayor Hardberger thanked CPS for their presentation and noted that it was beneficial to have this knowledge in order to make decisions and provide answers to citizens. Councilmember McNeil asked for additional information regarding the Efficient Conservation Program. It was noted that CPS promoted Windtricity and that the American Wind Energy Association had conducted a survey where CPS had the largest amount of wind energy of all municipalities in the country. Councilmember McNeil encouraged CPS staff to increase efforts and start a campaign on the things that could be done to conserve energy.

Councilmember Cibrian reiterated the importance of diversification, conservation, and efficiency. She requested an analysis of the $94 million for energy efficiency in all new buildings and noted that citizens would have higher bills if their homes were not properly constructed.

Councilmember Clamp asked if there would be additional increases in the future and what the 5% increase totaled in terms of dollars. CPS Staff replied that rate increases every other year were possible and that the 5% increase totaled $60 million for electric bills.

Councilmember Ramos noted that the homes in her district were not built with quality materials and therefore, were not very energy efficient. She expressed concern that resident’s bills would significantly increase and asked if it was absolutely necessary to increase the rates. CPS Staff replied that without the increase, nuclear energy would not be a possibility.

Mayor Hardberger stated that he was in support of the proposed rate increase because it was the responsible thing to do. He noted that since 1991, CPS had not asked for a rate increase while maintaining low debt, low rates and the highest financial rating in the country for a utility company. He reiterated the need to look at renewable energy and the sustainability of alternative energy. Lastly, he asked for an evaluation of energy efficiency and to find areas for improvement.

Councilmember Herrera entered the meeting at this time.

Councilmember Rowe noted that the City of Dallas was looking at establishing LEEDS requirements and suggested that the City of San Antonio follow their example.

Councilmember Rodriguez requested that CPS provide for one-on-one meetings with the Council as it relates to the proposed rate increase. Councilmember Herrera added that the citizens that attended her Town Hall Meeting seemed supportive of the rate increase, but would like additional information.

There being no further discussion, Mayor Hardberger adjourned the meeting at 4:22 pm.

**ZONING ITEMS FOR INDIVIDUAL CONSIDERATION**

2008-04-10-0304

Item P-1. PLAN AMENDMENT # 08019 (District 4): AN ORDINANCE AMENDING THE LAND USE PLAN IN THE CITY SOUTH COMMUNITY PLAN, A COMPONENT OF THE MASTER PLAN OF THE CITY, BY CHANGING THE USE OF A 107.5 ACRE TRACT OF LAND OUT OF CB 4191 LOCATED AT JETT RD. AND LOOP 1604 FROM URBAN LIVING TO AGRICULTURE AND RESOURCE PROTECTION/OPEN SPACE LAND USE. STAFF AND PLANNING COMMISSION RECOMMEND APPROVAL.

Ms. Nina Nixon-Mendez presented the proposed Plan Amendment.

Mr. Jack M. Finger expressed concern with said item and noted that when a San Antonio citizen tried to get an item on the agenda, it takes months, but when a big corporation or the Chambers of Commerce were upset over a zoning issue, it took no time at all. He added that he could not understand how the item had passed when Planning Staff and the Zoning Commission had all recommended denial.

Mr. Orlando Salazar, Vice Chair of the City South Management Authority, stated that he was speaking on behalf of former Mayor Ed Garza. He simply asked that the designation be returned to its original state.

Ms. Margaret Sanchez thanked Mayor Hardberger for initiating the reversal of said zoning and also thanked Councilmember Cortez for visiting their neighborhood and admitting his error.
Mr. Librado Villarreal spoke in favor of the rezoning and stated that it was unfortunate that the Council had been deceived when the case originally was voted upon February 21, 2008.

Mr. Ernest Chacon thanked the Council for their previous compassion and stated that he owned a large lot in the neighborhood, while those protesting owned smaller lots. He noted that he was too old to be farming the land and would like to retire with the money he would receive by selling the property.

Mr. Mayo J. Galindo spoke on behalf of the current property owner. He stated that his client was the only person who would truly be affected by the property’s zoning. He noted that the Starbright Agreement encouraged land around the Toyota Plant to be zoned Light Industrial or Offices and reversing the Residential Zoning and reinstating the Farm Land Zoning would not honor the agreement.

Ms. Laurie Charles spoke in favor of reversing said decision. She stated that Councilmember Cortez should not be held solely responsible for the error and that the entire Council needed to listen to their constituents and the various agencies and staff members who were in place to help their decision making.

Former Councilmember Richard Perez, President of The Greater San Antonio Chamber of Commerce, spoke in favor of the item. He said that as former Councilmember for District 4, he was aware of all the time and effort put into developing City South and the Management Authority. He added that the original designation was best for the area and the zoning should be reversed.

Councilmember Cortez thanked the residents who came to speak on behalf of said item and apologized for his mistake on the original zoning change. He noted that he had worked with various entities on possible solutions and that he had initiated policy changes so that this could not happen again.

Councilmember Cortez moved to adopt the proposed Plan Amendment. Councilmember McNeil seconded the motion.

The motion prevailed by the following vote: **AYES:** Cisneros, McNeil, Ramos, Cortez, Herrera, Rodriguez, Cibrian, Rowe, Clamp, and Mayor Hardberger. **NAY:** None. **ABSENT:** Galvan.

The plaza’s monthly calendar of events will be managed by the newly created Main Plaza Conservancy, which was established to preserve this community gem.

Mr. Faris Hodge, Jr. recognized Councilmember Cibrian for attending the Comanche Park Seniors Dance. He requested the total amount received by two SAPD retirees who had been paid $450 a day and the total amount spent on City Hall renovations. He spoke against Councilmember Rodriguez’s cell phone proposal in school zones and turning Commerce Street into a two-way street. Mr. Hodge added that there had been too much pressure put on the City Auditor.

Mr. Paul Powell stated that he was an Artisan Park Resident and thanked Council for establishing the public/private partnership with SAHA and others to develop Artisan Park. He noted that Artisan Park had not existed when the Event Decal Program Boundary had been drawn and the neighborhood was very close to the Alamodome. He requested that the boundary be extended to include the neighborhood.

Mr. Seahn Lobb, Lavaca Neighborhood Association, stated that safety would be a problem in Artisan Park due to the fact that it was in sub-phase one in which plots had been leveled and live wires installed. He noted that the area had not been barricaded well enough to prevent people from coming in contact with the wiring.

Mr. Boone Brinson spoke of his shop in the Farmer’s Market Food Court and stated that he was not sure if all of the issues had been resolved. He noted that the food court was going to stay open until 11:00 pm like in previous years, but the bathrooms may have to close at 9:00 pm. He added that their Fiesta Contract would be up for renewal in a year and asked if they could keep last year’s hours and renegotiate later.
