ITEMS FOR INDIVIDUAL CONSIDERATION

The City Clerk read the following Ordinance:
Item 4. AN ORDINANCE AMENDING THE MUNICIPAL CAMPAIGN FINANCE CODE AND ETHICS CODE.

City Attorney Michael Bernard stated that Mayor Castro and the Ethics Review Board had recommended various revisions to the Municipal Campaign Finance and the Ethics Code. He explained that within the Municipal Campaign Finance Code, legal signatories of high-profile contracts were prohibited from making contributions from the time a response was submitted until 30 days after the contract was awarded. He stated that the proposed revision would extend the contribution prohibition to the following: 1) Any individual seeking a high-profile contract; 2) Any owner or officer of an entity seeking a high-profile contract; 3) Spouses of any of these individuals; and 4) Any attorney, lobbyist or consultant retained to assist in seeking the contract. He noted that the proposed revision would change the contribution prohibition to begin 10 days after the solicitation has been released. He added that the proposed revision would extend the contribution prohibition to the following: 1) Any individual applying for a zoning change; 2) Any owner or officer of an entity seeking a zoning change; and 3) The spouse of any of these individuals. The contribution prohibition start date for zoning applicants will begin on the date the application is submitted to the City and continue for 30 calendar days after final action.

Mr. Bernard stated that one of the proposed revisions to the gift rule would eliminate the exception that allows city officials and employees to receive up to $500 per year in gifts of entertainment, transportation and lodging. He reported that under the current Ethics Code, service on outside boards, even those in partnership with the City, could generate a conflict of interest for City Personnel. The proposed revision would allow city officials and employees to serve on the boards of private sector partners in city initiatives as Non-Voting Members. He noted that the requirement to report the political contributions of those seeking contracts with the City would be revised to eliminate the need to include contributions to former City Councilmembers who were not in city office at the time the contract was sought. He stated that other revisions being recommended included timelines required for certain internal actions and revising terms for consistency and greater clarity throughout the code.

Mayor Castro called upon individuals registered to speak.

Nazirite Ruben Flores Perez spoke in support of the revisions to the Ethics Code and noted that there were other changes that could be made in the future.

Jack M. Finger spoke in support of the revisions to the Ethics Code but expressed concern with Section 2-45 Subsection C noting that the general rule stated in Subsection (a) did not apply to a campaign contribution made pursuant to the Texas Election Code.

Arthur Downey, Chairman of the Ethics Review Board spoke in favor of the revisions to the Municipal Campaign Finance and Ethics Code and stated that the Ethics Review Board was in full support of the changes.

Julie Iris Oldham spoke in support of the revisions but expressed concern with a Campaign Finance Fundraiser that was held on the Mayor’s behalf.

Lisa Gonzalez, Vice-President of Public Affairs of the Greater San Antonio Chamber of Commerce read a letter from Richard Perez stating that he applauded Mayor Castro for his commitment to ensuring an
ethical City Hall. He wrote in support of the revisions and noted that when he was first elected, ethics rules that governed the conduct of municipal elected officials were virtually non-existent. He wrote of the reform that began with Mayor Ed Garza and the need for high ethical standards and practices.

Ramiro Cavazos, President of the San Antonio Hispanic Chamber of Commerce spoke in support of the revisions to the Municipal Campaign Finance Code and Ethics Code. He noted that extending the list of prohibited individuals representing certain business interests would help the City Council make informed decisions without the perception of tainted dealings.

Ms. Vacek read written testimony from Faris Hodge, Jr. Mr. Hodge wrote that the purchases in Items 8, 11, 12, 14, 15, and 16 should be delayed due to the budget shortfall.

Councilmember Rodriguez thanked the Mayor and City Staff for their work on said item and stated that the revisions were positive for the city. He asked of the responsibility regarding campaign contributions from individuals that have submitted a proposal for a city contract. Mr. Bernard confirmed that the burden was on the person making the contribution. Councilmember Chan expressed her support for the Code Revisions and recognized Arthur Downey as the District 9 Representative and Chairman of the Ethics Review Board. She thanked Mayor Castro for his leadership in strengthening the Municipal Campaign Finance and Ethics Code.

Councilmember Cisneros recognized Mayor Castro and the Ethics Review Board for their recommendations to the Municipal Campaign Finance and Ethics Code. Ms. Vacek read a memorandum to the Mayor and City Council from Councilmember Clamp regarding Item 41. He wrote that the item was placed on the agenda by City Staff without briefing the City Council on the proposal and that Project Quest had already received a reduction in matching funds from 50 percent to 35 percent in 2006. He expressed concern that they were now asking for a reduction from 35 percent to 25 percent and received an extension of the deadline to provide matching fund documentation. He asked of the accountability and responsibility of Project Quest and wrote that the item should have been brought to the City Council through the committee process as set forth by City Charter and Ordinance. He wrote that at a time when the City is facing a budget deficit, the remaining $810,000 should be placed back into the General Fund. The monies should be used toward the current deficit or reprogrammed to support basic services. He asked the City Council to either postpone the item or vote to deny.

Councilmember Ramos recognized Jean Brady and expressed appreciation for her for her work in naming the new library in District 3 as “Mission Branch Library.”

The motion to approve the remaining Consent Agenda Items prevailed by the following vote: AYES: Cisneros, Taylor, Ramos, Cortez, Medina, Lopez, Rodriguez, Williams, Chan, and Mayor Castro. NAY: None. ABSENT: Clamp.

2009-06-25-0601

Item 52. PUBLIC HEARING AND CONSIDERATION OF AN ORDINANCE ACCEPTING THE REGIONAL BUSINESS DISPARITY CAUSATION ANALYSIS STUDY FINDINGS AND RECOMMENDATIONS FOR PURPOSES OF POLICY DEVELOPMENT.

Deputy City Manager AJ Rodriguez stated that the City of San Antonio was the lead partner of the nine-member consortium of public entities that contracted with MGT of America, Inc. to conduct a Regional Business Disparity Causation Analysis. He reported that the Disparity Study results indicated that the City has done a better job of providing contract bidding opportunities to small, minority, and women-owned businesses (M/WBE), but could do more. He explained that the study reviewed the City of San Antonio and private sector utilization of small M/WBE’s.

Mr. Rodriguez noted that staff had implemented an outreach process to gather feedback from stakeholders and the community and that information was available to the public on the City’s website. He reported that the Disparity Study Oversight Committee and Small Business Advocacy Committee had accepted the study findings and recommendations. He introduced Franklin Lee of Tydings and Rosenberg, LLP who represented the City as Outside Counsel throughout the Disparity Study.

Mr. Lee stated that he had worked with minority business program development for over 23 years and recognized the dedicated group of individuals that he worked with on the San Antonio project. He spoke of the importance of adopting policy that is legally defensible and acceptable to the community-at-large. He spoke of the City’s automated centralized registration system that would enable cutting edge outreach efforts to the entire business community for contracting opportunities. He introduced Dr. Vince Eagan of MGT of America, Inc. who presented findings and recommendations of the study.

Dr. Eagan stated that in the early 1980’s, the City of San Antonio spent about two percent on M/WBE contracts. In the last Disparity Study, he reported that the City spent about five percent of the total spent; while in the current Disparity Study, the City is spending 25.95% of the construction budget on M/WBE contracts. He noted that there had been a significant growth in the dollar value and percentage of M/WBE prime contractors that led to growth in availability but there was some disparity between the availability and utilization of the firms. He reported that in regard to subcontracting, there was significant growth and little disparity in the Hispanic American and Non-Minority Owned Construction...
categories. He stated that substantial disparity existed for construction firms owned by African Americans, Asian Americans, and Native Americans.

Dr. Eagan reported that based on US Census Evidence for the San Antonio metropolitan area business population for construction firms, Hispanic American-owned firms were 3.5% of sales, with $619,588 in average revenue per firm, and 26.9% of the San Antonio market place. He noted that Census Public Use Microdata Sample 2000 data for the San Antonio metropolitan area indicated that there was statistically significant disparities in entry and earnings from self-employment. He stated that the National Survey of Small Business Finance found a statistically significant positive relationship between the probability of loan denial and African American ownership.

Dr. Eagan concluded that the study provided a strong basis of evidence to support the continuation of a program to promote M/WBE utilization. He stated that combined evidence in underutilization of available M/WBE subcontractors, anecdotal evidence, and quantitative private sector evidence suggest that without affirmative action measures; the City of San Antonio would be a passive participant in exclusion of M/WBE subcontracting firms. He noted that a proposed program should match the evidence provided through the study and evolve in response to facts. He explained that narrow tailoring was essential and included prioritizing race neutral efforts; linking goals to availability; and limiting the burden on third parties (non-minorities). He stated that the Federal Disadvantaged Business Enterprise Program was a model that the City could follow that has consistently been upheld by Federal Circuit Courts.

Dr. Eagan commended the City of San Antonio for their participation in Unified Certification and improvements in Data Management. He noted the great work of programs within the Economic Development Department including business development assistance.

Councilmember Chan thanked all that worked on the Disparity Study and asked of the City’s Contract Management System. Mr. Rodriguez stated that the system would allow staff to review the prime contracts within the various city departments and track the subcontractors that they are utilizing from their Good Faith Effort Plan. He noted that it would also provide information on the availability of firms and how they could be utilized. He explained that the next phase included the drafting of policy options utilizing the data collected with input from the Economic Development Council Committee, Small Business Advocacy Committee, and other community stakeholders.

Mayor Castro called upon citizens registered to speak.

He stated that there had been great progress over the past 22 years in minority contracting and complimented City Staff for their efforts. progress had been made in minority contracting, the Greater Chamber felt that more could be done to assist businesses. He thanked all for their work on the Disparity Study.

Joe Linson, President of Chelsea Sandwiches of Texas spoke in support of the Disparity Study. He stated that he catered at the Airport, Convention Center, and Alamodome, and that was a result of the City Programs for small, minority-owned businesses. He noted that he was not in support of quotas or bid preferences for minority firms. He expressed support for a small business enterprise goals program and recognized City Staff for their efforts.

Gloria Andrade Merrell, Chair of the Small Business Advocacy Committee (SBAC) spoke in support of the Disparity Study and noted that the SBAC had been involved in the process for the past two years. She noted that the results indicated that much progress had been made in M/WBE contracting, but there was still work to accomplish. She stated that the SBAC believed in the validity of the study and could be used as a tool in developing policies to strengthen the health of San Antonio’s economy.

Councilmember Cisneros recognized all involved in the Disparity Study and asked of the small percentage of M/WBE participation in the private sector. Mr. Rodriguez stated that there was significant disparity in the private sector compared to the public sector in regard to M/WBE participation. He spoke of the City’s efforts to ensure that a Good Faith Effort Plan is a bid requirement and that the Contract Management System implemented tracks their efforts.
