He noted that the vision of SA2020 is very important to the direction of the city and spoke of the great amount of input received by the community. He recognized State Demographer Lloyd Potter who was present and thanked him for his work.

Edward Benavides, Chief of Staff stated that Mayor Castro had appointed Darryl Byrd, Sonia Rodriguez and Graham Weston to serve as TriChairs to oversee the SA2020 Process. He reported that a Steering Committee of 22 individuals representing various areas of the city was formed and six community-wide meetings were held. He noted that the City Council had approved \$180,000 on September 2, 2010 for the community engagement process. He indicated that a Final Report was produced in March 2011 which categorized the citizen input into 11 Vision Areas. He stated that in May 2011, SA2020 was established as a Texas Non-Profit Organization. He noted that the City Council subsequently approved a no-cost lease agreement with the University of Texas at San Antonio (UTSA) for SA2020 Office Space.

Mr. Benavides reported that staff was requesting approval of a Resolution acknowledging the SA2020 Final Report. He stated that the Report identifies targets, key indicators and supplemental metrics to aspire to by the year 2020. He noted that staff was further requesting approval of a Memoranda of Understanding with SA2020 in which the city would participate as the lead party for two of the 11 Vision Areas: 1) Arts & Culture and 2) Community Safety. He mentioned that as the lead, the city would contribute data of key indicators and identify targets and outcomes in coordination with stakeholders. He reported that key indicators within Community Safety include: 1) Be the safest big city in America and 2) Increase by 10% the number of community networks and trainings to combat crime. Within Arts & Culture, key indicators are: 1) Double attendance at Arts Programs and 2) Double public and private funding for the Arts. Mr. Benavides indicated that staff was also requesting approval of an agreement with UTSA in the amount of \$160,000 for data collection, management, and reporting related services regarding key indicators identified within the SA2020 Report. He introduced Darryl Byrd, CEO of SA2020.

Darryl Byrd stated that the last time San Antonio had come together to comprehensively plan for the future was in the 1980's. He noted that SA2020 was San Antonio's bold vision for the future and noted that Mayor Castro had invited citizens to engage and participate with the question, "What do we want

our city to look and feel like in the year 2020?” He reported that community sessions were planned to maximize input, ownership and accountability. He indicated that thousands of San Antonians had participated at a high level and that surveys were received from 118 zip codes in San Antonio and Bexar County. He mentioned that the top 15 zip codes represented less than half of the total responses and that the zip code with the greatest number of responses represented 5.6% of the total.

Mr. Byrd reported that regarding the quality of life in the city, individuals under the age of 24 were less positive than those over the age of 68. He stated that the highest positive areas were: 1) Arts and Culture; 2) Health Services; 3) Housing; and 4) Safety. The most negative areas include: 1) Infrastructure; 2) Transportation; and 3) Job Opportunities. He outlined the 11 Vision Areas identified through the process and provided examples of the focus areas and metrics for each.

Mr. Byrd spoke of the SA2020 Organization, noting that it was an Independent Texas Non-Profit Corporation established as a binding force for the community vision and catalyst for investment to bring the vision to reality. He stated that SA2020 identifies and qualifies investment partners in each vision area as sound investment vehicles. He noted that SA2020 would also connect investors with investment opportunities in the SA2020 Vision Areas that they are most passionate about. He reported that SA2020 would regularly and publicly report on the progress toward achieving the SA2020 Vision in each of the 11 Focus Areas. He invited everyone to attend the Community Investment Meeting that would be held on Saturday, May 19th to share and celebrate the successes to date. Lastly, he outlined the SA2020 Community Investment Structure in which the future of SA2020 would be led by Community Vision.

Mayor Castro thanked Mr. Byrd and stated that SA2020 was launched with three phases: “Dream It. Map It. Do It.” He spoke of the strategic plans that have been completed for many of the Vision Areas and noted that people are already performing work to achieve the goals. He asked of Serve SA. Mr. Byrd replied that Serve SA was the first community investment launched in October 2011. He explained that Serve SA: 1) Provides workplace mentoring for young people; 2) Helps youth reach 3rd grade reading levels; and 3) Offers Financial Aid Saturdays. He mentioned that they have had over 1,000 volunteers help young people and families fill out their financial aid forms. Mayor Castro stated that in order to reach the goals of SA2020, there will need to be a tremendous amount of volunteers from across the city. He spoke of the fundraising efforts for SA2020, noting that \$750,000 had been committed by the business community.

Councilmember Saldaña stated that he was very impressed with the SA2020 process and that it was a tremendous feat for the city. He spoke of the importance of metrics and analysis of the work accomplished through SA2020. He asked who would be responsible for the nine Vision Areas not being managed by the city. Mr. Byrd replied that each of the Vision Areas would have from one to three lead partners but would not be responsible for making things happen. He indicated that the lead partners would serve as conveners and provide data. Councilmember Saldaña stated that he looked forward to September 25, 2020 and was pleased that some of the goals of SA2020 had already been achieved such as a reduction in the teen pregnancy rate.

Mayor Castro commended Councilmember Taylor for her work with Healthy Futures to reduce the teen pregnancy rate and noted that some of the goals of SA2020 will need to be reset.

Councilmember Soules referenced the amount of survey responses received and requested more detailed information by zip code and other demographics. Mr. Byrd replied that they would look at providing that information.
