Item 5. AN ORDINANCE AUTHORIZING THE NEGOTIATION AND EXECUTION OF A CONSTRUCTION MANAGER AT RISK CONTRACT IN THE AMOUNT NOT-TO-EXCEED $105,000,000.00 WITH TURNER CONSTRUCTION COMPANY FOR THE CONSOLIDATED RENTAL CAR FACILITY AT SAN ANTONIO INTERNATIONAL AIRPORT, A CUSTOMER FACILITY CHARGE FUNDED PROJECT.

Frank Miller presented a Power Point on the Construction Manager at Risk for the Consolidated Rental Car Facility (CONRAC). He stated that a CONRAC was recommended as part of the Airport Master Plan and the City Council had approved a Customer Facility Charge (CFC) as a funding mechanism for the CONRAC. He reported that the City Council had approved a Design Services Contract with TranSystems on February 21, 2013. He provided an overview of the CONRAC noting that it would include a Customer Service Area for Rental Car Ticketing Areas. He stated that there would be multi-level fueling stations and vehicle wash facilities. Additionally, there would be public parking, access to roadway systems, and other amenities.

Mr. Miller highlighted the Construction Manager at Risk Responsibilities in which they will collaborate with the City and TranSystems; provide constructability reviews; and perform value engineering. He spoke of the solicitation process and noted that a Request for Qualifications (RFQ) was released in January 2013. He outlined the minimum qualifications noting that the respondent shall have demonstrated experience: 1) Minimum of 10 years of experience in building projects in similar size, complexity and type; 2) Experience and understanding in construction management of multi-phased projects and projects with on-going operations; and 3) Project Management and Cost Estimating. He reported that eight teams submitted proposals and two teams were shortlisted by the Evaluation Committee. The two teams were Austin Commercial and Turner Construction. He explained the Evaluation Matrix and indicated that Turner Construction had scored the highest and was being recommended as the Construction Manager at Risk.

Mr. Miller reported that the mandatory minimum goal for subcontracting was 31% for Small Business Enterprises (SBE) and 24% for Minority/Women Business Enterprises (M/WBE). He stated that Turner Construction had committed to meeting both goals. He noted that Turner Construction had worked on CONRACs at SeaTac International; Miami International; and Indianapolis International Airports. He indicated that Turner Construction was headquartered in New York but had a local San Antonio Office. He outlined the fiscal impact in which the City Council would authorize a contract in an amount not-to-exceed $105 million and initial work authorization for pre-construction services in an amount not-to-exceed $680,000. He reported that TranSystems had begun design services which were expected to take 18 months to complete. He stated that construction would begin in October 2014 and the project was projected to be substantially complete by January 2017.

Mayor Castro called upon Mr. Jack M. Finger to speak on said item.

Mr. Jack M. Finger stated that he had many questions about the project. He noted that the car rental companies would benefit from the CONRAC and asked why the average tax payer would have to
subsidize the project. He added that the believed the car rental companies should have built the facility and asked how long the CFC would be charged.

Mayor Castro thanked staff for the presentation and asked when the project would be complete. Mr. Miller confirmed that the project would be completed by January 2017. Mayor Castro spoke of the convenience that the CONRAC would provide for travelers and asked if a shuttle would be utilized. Mr. Miller replied that they would not have to use a shuttle as the CONRAC would be within walking distance. Mayor Castro asked of the proximity to a future Terminal C. Mr. Miller responded that the CONRAC would be able to serve all terminals in a convenient manner. Mayor Castro inquired of the subcontracting goals and efforts made by Turner Construction. Mr. Miller explained that they had not reached that point yet and that they would solicit small business participation at a certain point in the design phase. Mayor Castro asked of the penalties for not adhering to a Maximum Guaranteed Price. Mr. Miller replied that there were contingencies in place to address unforeseen conditions but the Maximum Guaranteed Price would be set and must be complied with. Mayor Castro mentioned that he looked forward to the completion of the project.

Councilmember Chan asked of the $105 million. Mr. Miller replied that $105 million was the budget for the project. Councilmember Chan asked of the Construction Manager at Risk Process. Mike Frisbie explained that they were in the process of working with the design team along with the construction management team. He noted that their goal was to stay within the $105 million budget. He indicated that they would determine a Maximum Guaranteed Price when they reached 70% of the design. Councilmember Chan asked of the type of contract being signed with the construction company. Mr. Frisbie replied that there would be a not-to-exceed contract amount and there would be criteria for the Maximum Guaranteed Price to be delivered. He noted that they had submitted their general conditions and profit numbers that need to be held to. Councilmember Chan congratulated Turner Construction but stated that it was unfortunate that no local general contractors were able to add this project to their portfolios. She spoke of the need to continue to build local talent and help the businesses in San Antonio. She asked of the two firms that were short listed and what stood out in the scoring. Mr. Frisbie stated that the two firms chose not to do a joint venture and would be significantly teaming locally during the construction phase. He indicated that their specific experience and project team stood out. Councilmember Chan requested that there be systems in place when changing out key personnel. She asked who would be the person managing the project on behalf of the city. He stated that Jeff Rodriguez under Razi Hosseini, Assistant CIMS Director would manage the project. Councilmember Chan thanked staff for their work and asked that they continue to help build capacity and experience of local firms.

Councilmember Lopez asked when the City Council may know if the January 2017 opening may not be met. Mr. Miller replied that they would know more once the design phase was complete. He stated that they would monitor construction of the project on a regular basis. Councilmember Lopez requested that staff be cognizant of the January 2017 deadline due to the travel season and would like to see the project completed earlier.

Councilmember C. Medina asked of the subcontracting goals on the design phase. Mr. Frisbie replied that the design team had been approved by the City Council in February and consisted of 10 local, small, minority-owned businesses. He added that the Contract Design Team would work with Turner Construction to ensure that the subcontracting goals were met.
Councilmember Chan moved to adopt the proposed Ordinance. Councilmember C. Medina seconded the motion.
