Judge John Bull outlined the process of appointing the Municipal Court Judges and stated that the applicants for two vacant full-time positions had been interviewed by the Governance Council Committee. He noted that the San Antonio Municipal Court has 10 Judges that adjudicate 300,000 cases per year.

Councilmember Bernal thanked the Municipal Court Judges for their work and stated that he was pleased with the selection of the two new Judges. He referenced a letter from Judge Guerrero and asked of the Appellate Body for a Municipal Court Decision. 25. An Ordinance authorizing the City’s criteria for evaluating applications seeking U.S. Department of Housing and Urban Development Home Investment Partnerships program funding assistance and other City assistance in support of multi-family rental housing development activities. [Peter Zanoni, Deputy City Manager; John Dugan, Director, Planning & Community Development]

Councilmember Krier requested a brief presentation. Mr. John Dugan stated that the Department of Housing and Community Affairs at the State Level recently had some litigation in which the Court ordered a Remediation Plan for the Allocation of Tax Credits for Low and Moderate Income Housing. He noted that the State must allocate some of their Tax Credits toward High Opportunity Areas in which there are lower poverty levels and high performing schools. He indicated that the ordinance would add new criteria to the City’s Evaluation Process within the Site Characteristics and Transit Amenities Scoring.
Category to reflect the State Change. Councilmember Krier stated that he thought that more incentives and available housing options would be provided near poor performing schools. Mr. Dugan explained that the substance of the litigation was that you could not discriminate people from access to good schools and better jobs. Councilmember Krier stated that the market should drive the demand for housing and asked if private development was taken into account. Mr. Dugan replied that it was not part of the scoring criteria.

Councilmember Saldaña stated that in the past, many of the Housing Tax Credits were utilized in minority areas where there was lower income and a higher crime rate. He noted that there needed to be more opportunities for Middle-Class Families to move into areas with higher performing schools. Mr. Dugan mentioned that these were not public housing projects and that the idea was to open up opportunities for children to go to better schools and have access to better jobs. Councilmember Saldaña stated that he looked forward to additional policy discussion regarding same.

Councilmember Taylor stated that the discussion was related to multiple public policy goals including Education, Transportation, and Neighborhood Stabilization. She noted the intent of the lawsuit at the State Level in order to provide opportunities for children from Low Income Families to attend better schools. She stated that she hoped that policies could be developed which would create more Mixed Income Communities throughout San Antonio.

Councilmember Gallagher expressed concern that people were being shifted out of their homes and stated that they should stay where they are with improved housing opportunities.

Councilmember Lopez stated that this was a good approach and that the Homeowner Associations would have input in the developments. He noted that this was a fair process and predicated on the law.

Councilmember Nirenberg asked of Section 8 Housing. Mr. Dugan explained that Section 8 Housing was a development in which all or a large portion of a housing project was for individuals that did not have jobs. He stated that the Multi-Family Rental Housing Development being discussed today was Workforce Housing in which you must have a job making twice the minimum wage to qualify. Councilmember Nirenberg stated that he had written a letter to the Quality of Life (QOL) Council Committee regarding the need to address the process and uniformly apply criteria to all projects.

Councilmember Gonzales asked if this policy would be included in the Comprehensive Plan. Mr. Dugan replied that the Comprehensive Plan would coordinate all of the city's initiatives and that Transportation was a component of that Plan. Councilmember Gonzales stated that it was a challenge to vote on one project after another without the big picture on how they affect each other. She spoke of the importance of quality housing disbursed
Councilmember Viagran concurred that it was important to provide Market Rate and Mixed-Income Housing throughout the city.

Councilmember Bernal stated that San Antonio was recently named as one of the most Economically Segregated Cities in the Country. He noted that this was not Section 8 Housing and that it was important to provide places for people that make less than the Median Income of that area to live. He expressed concern with clustering poverty in one area and stated that there were great benefits to having diverse neighborhoods.

Councilmember Taylor stated that it was the responsibility of Elected Officials to provide working families with decent housing in diverse areas throughout the city. She noted that they should also work to stabilize neighborhoods in the Inner City.

Councilmember Saldaña added that people should have opportunities to live in the area in which they work and believed that good housing should be provided throughout the city.

Councilmember Gallagher stated that he appreciated the good intentions but was still concerned that citizens would be deprived of good housing within their Council District.

Councilmember Nirenberg asked the City Clerk to re-read the caption for Item 25. Mrs. Vacek re-read the caption.

Councilmember Bernal moved to adopt the Ordinance. Councilmember Taylor seconded the motion. The motion prevailed by the following vote:

28. Appeal to the City Council of a decision by the Building-Related and Fire Codes Appeals and Advisory Board in connection with the denial of a Home Improvement Contractor Registration Application to Mr. Louis H. Perez III. [Erik Walsh, Deputy City Manager; Roderick Sanchez, Director, Development Services]
Mayor Pro Tem Medina called upon Mr. Jamal Rhadbane to speak:

Mr. Jamal Rhadbane, Attorney representing Mr. Louis H. Perez, III, stated that Mr. Perez had carried on the Family Business after his Father had passed away. He noted that at the time that Mr. Perez submitted his application to the city, he had not pled guilty to any crime of moral turpitude. He added that although Mr. Perez had made some mistakes in the past; he should be allowed to perform construction work.

Rod Sanchez stated that the City Code allows the Building Official to review a person’s Home Improvement Contractor Registration Application. He noted that a person issued a Certificate of Registration must: Be at least 18 years of age; Be a United States Citizen or a Lawfully Admitted Alien; and the Building Official must be satisfied with the person’s honesty, integrity, and trustworthiness based on information supplied and discovered in connection with the application. He indicated that Residential Building Contractors were issued permits from the city to legally work and meet with citizens in their homes. He reported that Mr. Perez’s September 2013 Application included a Felony Conviction in 1999 related to Drug Possession, as well as other convictions including arrest warrants, unlawful carrying of weapons, and assault. Therefore, the Development Services Department denied his application per City Code and the intent of the Consumer Protection Program. He stated that the Building-Related and Fire Codes Appeals and Advisory Board heard and denied Mr. Perez’s Appeal in November 2013.

Councilmember Taylor asked Mr. Rhadbane and Mr. Perez if they wanted to provide any additional information to the City Council. Mr. Rhadbane stated that the City Council should allow individuals with a checkered past the opportunity to get back on the right path.

Councilmember Taylor stated that although she believed that individuals should be given a second chance, she was concerned with additional offenses that occurred in 2013.

Councilmember Taylor moved to deny the appeal of the Building-Related and Fire Codes Appeals and Advisory Board decision submitted by Louis Perez, III. Councilmember Viagran seconded the motion. The motion prevailed by the following vote:

Aye: 10 - Bernal, Taylor, Viagran, Saldaña, Gonzales, Lopez, Medina, Nirenberg, Krier and Gallagher
