Councilmember Taylor requested a presentation. Alex Lopez stated that staff recommended that the National Economic Research Associates, Inc. (NERA) conduct the city's next Disparity Causation Analysis Study. She noted that the Small Business Economic Development Advocacy (SBEDA) Ordinance was approved in 2010 and was revised due to the Disparity Study conducted later in the year. She noted that revisions included: 1) Contract-Specific Goal Setting; 2) Central Vendor Registry (CVR); 3) Capacity Building Programs; and 4) Substantial Compliance Measures. She mentioned that a Disparity Study must be conducted every five years and outlined the Request for Proposals (RFP) process utilized. She indicated that the Review Committee had interviewed all five applicants and recommended NERA. She provided background information on NERA, noting that they were a Global Economic Consulting Firm founded in 1961. She highlighted the Subconsultants that would assist NERA and noted that the goal was to have the Revised SBEDA Ordinance presented to the City Council in December 2015.

Councilmember Taylor stated that this was a very important contract and asked of including an outside business person on the Evaluation Panel. Ms. Lopez replied that it was a challenge to find an outside perspective that did not have a conflict and therefore; only city staff was utilized. Councilmember Taylor asked of any incidents that NERA had experienced in other cities. Ms. Lopez replied that there were no legal issues and that one incident was related to a typographical error that occurred with a study in Cleveland. Councilmember Taylor asked of the Local, Women-Owned Business that had also applied
but not received the recommendation. Ms. Lopez explained that their low score within the Qualifications and Experience Category was due to the fact that they had experience within Employment Law and Fair Housing but not with Disparity Studies. She stated that during their interview, the entity had confirmed that they had not finalized the formula they would use to conduct the study. Councilmember Taylor asked of the role that the firm that completes the study would play in the instance of a legal challenge. Ms. Lopez responded that they become the expert witness and defend the methodology utilized for the study.

Councilmember Lopez asked of the required Minority Subcontractors. Ms. Lopez replied that there was a 17% Minority Subcontracting Requirement. Councilmember Lopez noted that NERA did not receive any SBEDA Points. Ms. Lopez stated that SBEDA Points were awarded to Prime Respondents that are certified as Small Minority or Small Women-Owned Businesses which NERA was not. She explained that the 17% Minority Subcontracting Requirement was separate from SBEDA and required of all applicants. Councilmember Lopez asked of next steps. Ms. Lopez replied that the four applicants that were not selected had received letters indicating same and that staff was available to discuss areas of improvement with those not selected.

Councilmember Viagran asked of the number of employees of the Subconsultants. Ms. Lopez replied that it would be based on the work load. Mrs. Sculley added that they would research the number of employees utilized during the previous Disparity Study and estimate what would be needed for the current Study.

Councilmember Gallagher asked of the performance of NERA in other cities in which they conducted a Disparity Study. Ms. Lopez replied that their Studies had been adopted by the cities and programs had been implemented based on their findings. Councilmember Gallagher asked if the City of San Antonio needed another Disparity Study. Mrs. Sculley replied that the city was required to maintain a Disparity Program.

Councilmember Bernal stated that it was necessary to have a Program that helped Local, Small, Minority-Owned Businesses and was a great protection for the city. He added that it was the city's duty to have best, most robust Disparity Study conducted.
