5. **A Briefing by the San Antonio Water System (SAWS) on High Bill Inquiries.**
   [Robert R. Puente, SAWS President and Chief Executive Officer]
Robert Puente, SAWS President and Chief Executive Officer, presented a Power Point regarding the High SAWS Bills reported by customers. He explained the causes for the high bills in which a perfect storm occurred: 1) Estimations instead of actual readings; 2) Unique weather pattern; 3) Staffing Issues; and 4) Meter Replacement Program. He stated that they had begun addressing concerns and hired a Customer Service Vice-President to improve efficiency and processes. He noted that they conducted Internal and External Reviews and were implementing technology solutions. He reported that they were hosting neighborhood meetings to address the community concerns. He stated that they immediately responded to concerns through a media blitz and sending letters to the affected ratepayers. He provided an overview of the four Rapid Response Sessions that would be held throughout the community. He highlighted the Long-Term Solutions and Goals: 1) Increased quality assurance reviews; 2) Use Industry Best Practices; 3) Future bills will reflect reads or estimations; 4) Technology-based solutions; and 5) Continuously improve route efficiency.

Mayor Taylor thanked Mr. Puente for the information and asked if SAWS had a sufficient number of Meter Readers. Mr. Puente replied that they had redirected some staff to read meters and would be asking their Board to approve the hiring of 15 additional Meter Readers. Mayor Taylor asked if the Bexar Met Consolidation was a factor. Mr. Puente replied that it was a part of the issue noting that they had merged two routes; however, the main issue was the estimation. Mayor Taylor asked of Technology Based Solutions. Mr. Puente stated that they have a computer system that informs them of really high or low bills for staff to review before sending them out to the customer. He mentioned that they were looking at a Smart Phone Application that customers could use to take a photo of their meter and pay their bill. Agnes Barard, VP of Customer Service stated that they were hoping to move forward with these solutions within 60 days. Mayor Taylor spoke of the importance of Water Conservation and stated that policies should reward and incentivize the reduction of water usage.

Mayor Taylor called upon the citizens registered to speak.

Gianna Rendon stated that she was a resident of District 5 and thanked Councilmember Gonzales for hosting a Community Fair in which residents were able to sign up for assistance from Project AGUA. She expressed concern with the new rate structure proposed by SAWS to support the Vista Ridge Project.

Nazirite Ruben Flores Perez expressed concern with his high water bill but noted that SAWS Crews had been working to replace and clean meters in his neighborhood.
Jack M. Finger expressed concern with the high SAWS Bills and the lack of manpower. He stated that SAWS should not use estimates for billing and that the Vista Ridge Project should not move forward.

Councilmember Krier spoke of the many residents in District 9 that had expressed concern with their high water bills. He asked of the communication from SAWS to customers. Mr. Puente replied that they were sending letters to ratepayers that had abnormally high bills and asked them to contact SAWS to discuss in further detail. He noted that they were also asking residents to provide their contact information to their Neighborhood Association President and SAWS would contact them directly. Councilmember Krier asked of Automatic Meters that do not have to be physically read. Mr. Puente replied that the City of Arlington had implemented same; however, SAWS did not feel that it was cost effective to implement.

Councilmember Treviño thanked Councilmember Krier for bringing the issue forward and asked if SAWS would be able to address the City Council every other month to provide updates. Mr. Puente confirmed that he could provide updates as requested by the City Council. Councilmember Treviño spoke of the importance of communication with the community and the use of technology solutions.

Councilmember Medina commended SAWS for their work on the issue thus far and spoke of the potential to empower customers to read their meters.

Councilmember Gallagher thanked SAWS for addressing the issue and asked of the estimation of SAWS Revenues. Mr. Doug Evanson stated that they were processing a large number of credit adjustments that would impact their revenues. He noted that they estimated that $1 Million would be credited to customer accounts. Councilmember Gallagher asked of the 2013 Study of SAWS Processes. Mr. Evanson replied that the comments relative to the Meter Reading Process were favorable but noted that they needed to improve their Billing Process.

Councilmember Nirenberg thanked Mr. Puente for the information and asked of the letters that had been sent to customers. Mr. Puente replied that a good amount of letters had been sent and others were still being processed. He stated that their goal was to send letters to customers whose bill was estimated or if their bill was abnormally high. Councilmember Nirenberg stated that they should ensure that they were addressing this issue for the long-term and that they should maintain open lines of communication with the public and City Council.
Councilmember Gonzales asked how many times estimation issues had occurred. Mr. Puente replied that there had been minor issues but had never occurred to this magnitude. Councilmember Gonzales asked if Meter Readers were SAWS Staff or contracted out. Mr. Puente stated that they were SAWS Employees but would be outsourcing 15 new employees from a Private Vendor if authorized by their Board.

Councilmember Viagran stated that she was pleased with the Rapid Response Sessions being held in the community and asked if ratepayers would be informed when their rates were estimated. Mr. Puente responded that they would have that ability in January 2016. Councilmember Viagran asked of the number of bills that were estimated. Mr. Puente replied that they had estimated readings for 50,000 meters which was 10% and hoped to reduce it to 4% in the future. Councilmember Viagran spoke of the importance of public trust and asked of the replacement of meters.

Councilmember Warrick asked why the billing issues were regional. Mr. Puente stated that more homes in Districts 8, 9, and 10 use irrigation systems which cause higher water bills. He noted that there were some issues in other districts and they were addressing those on a case-by-case basis. Councilmember Warrick thanked Mr. Puente for his leadership.

Councilmember Lopez thanked Mr. Puente for addressing the issue and spoke of the importance of restoring public confidence. He stated that he would like to discuss educating the community and the cost of improvements at the Council Committee Level.

Councilmember Saldaña asked if the issues in the Stone Oak Area were related to Bexar Met Consolidation. Mr. Puente stated that the problems were due to estimated high water usage in the area due to irrigation systems and a small portion was related to Bexar Met. Councilmember Saldaña asked of goals for estimation of meters. Mr. Puente replied that their goal was to estimate 4% or less.

Mayor Taylor stated that she looked forward to more frequent interactions and dialogue on these issues and thanked Mr. Puente for the information.
