Subject: [EXTERNAL] Habitable Demolition?

Currently, in the Government Hill Neighborhood, we have a current inhabited 1922 Tudor Home that has been issued demolition permits by the city council, all while the neighborhood was in the process to have it designated Historic.

SA conservation society and the AIA were helping us with is effort.

This home is and should be preserved, but of course it will not, so the city should make arrangements with the owner/Developer to relocate the home to another location within the neighborhood or offer it to another investor or home buyer to move.

If not, this home should be **dismantled**, materials preserved as recycled artifacts, for current projects in Historic Neighborhoods.

705 East Grayson St should not be added to the growing landfill problem, but be eco- friendly and reused by those trying to find period materials.

Denise Homer
Government Hill Historic neighborhood property owners.
