City of San Antonio, Fire Department, Arson Bureau

TITLE:
Arson Bureau Investigation Records, 1921-1982

DATES:
1921-1982 (inclusive); 1936-1972 (bulk)

QUANTITY:
6 ft. 3 in.

LANGUAGES:
English

REPOSITORY:
City of San Antonio, Office of the City Clerk, Municipal Archives & Records

ADMINISTRATIVE HISTORY:
The Arson Bureau is responsible for investigating the cause of fires and explosions within the city limits of San Antonio. They also investigate fire-related deaths, life threatening burn injuries, suspected explosive devices, and bomb threats.

Fire investigations often occur in two stages: determining the cause of the fire, and, if arson is determined as the cause, conducting a criminal investigation to bring the perpetrator(s) to justice. Arson Bureau investigators are trained in fire origin and cause, investigative techniques, criminal law, and crime scene processing. Several investigators are certified polygraph examiners, which add an important capability for criminal investigations. All investigators are certified Peace Officers with arrest powers. They are responsible for filing cases with the Bexar County Criminal District Attorney’s Office involving related crimes such
as Criminal Mischief, Possession of Explosive Devices, Hoax Bombs, Insurance Fraud, and Homicide.

SCOPE AND CONTENT:
The bulk of the collection consists of records of arson investigations conducted by the City of San Antonio Fire Department. Often included are witness accounts, and, in later years, details of methods used by the fire department to extinguish the fire. The cases are organized by date, and include the property occupant or owner, address, and date of the fire. The photographs frequently correspond to the text records in the Case Files section of the collection. The negatives frequently accompany the photographs in the same folder. Some folders in the photograph section contain only the negatives of the images.
