

CITY OF SAN ANTONIO  
OFFICE OF THE CITY CLERK  
MUNICIPAL ARCHIVES & RECORDS

---

**CREATOR:**

City of San Antonio, Department of Public Works

**TITLE:**

Department of Public Works Records, 1916-1985

**DATES:**

1916-1985 (inclusive); 1940-1985 (bulk)

**QUANTITY:**

34.5 cu. ft. of printed material; approx. 625 maps and blueprints; 246 photographs

**LANGUAGES:**

English

**REPOSITORY:**

[City of San Antonio, Office of the City Clerk, Municipal Archives & Records](#)

---

**ADMINISTRATIVE HISTORY:**

Created following the reorganization of the city charter and city departments in the 1951, the Public Works department amalgamated the duties previously shared by the Department of Sanitation, Parks, and Public Property and the Department of Streets and Public Improvements. Under the new charter, the department assumed responsibility for the "planning, opening, construction, maintenance, and repair of all streets, alleys, sidewalks, bridges, rivers, watercourses, creeks, ditches, and public ways; of the sanitary and storm sewers, sewer systems, and sewage disposal plants; of the construction, maintenance, repair, and operation of all public buildings and properties belonging to or used by the City; of the city markets; of building, electrical, and plumbing permits; of

weights and measures; of the collection and disposal of garbage; and of such other functions as prescribed by ordinance."<sup>1</sup>

---

**SCOPE AND CONTENT:**

Records include correspondence, contracts, reports, memoranda, blueprints, architectural drawings, photographs, and slides that document the activities of the City of San Antonio's Public Works department, chiefly the files of the Director of Public Works from the late 1940s through the 1980s. The records are arranged into four series: administrative files, financial files, project files, and subject files. The files illuminate the daily activities of each of the Public Works Department's sewage, drainage, and street subdivisions, and also the department's involvement in notable city projects such as the preparation and maintenance of the HemisFair Park, sewage and drainage projects relating to the protection of Edwards Aquifer, and renovations to Municipal Auditorium and San Antonio International Airport.
