

CITY OF SAN ANTONIO
OFFICE OF THE CITY CLERK
MUNICIPAL ARCHIVES & RECORDS

CREATOR:

City of San Antonio: Office of the City Engineer

TITLE:

Subdivision, Civil Engineer, Survey Book 3

DATES:

1883-1890

QUANTITY:

1 bound volume out of 4 total bound volumes

LANGUAGES:

English

REPOSITORY:

[City of San Antonio, Office of the City Clerk, Municipal Archives & Records](#)

ADMINISTRATIVE HISTORY:

The primary purpose of Survey Book 3 is to provide unique, identifying descriptions of property belonging to various individuals in San Antonio, Texas. The descriptions are property surveys created by professional survey engineers. These survey engineers were employed by the Office of the City Engineer, which was responsible for duties such as building sidewalks and making all necessary maps for the City of San Antonio. (See [Ordinance 01-88](#) of February 21, 1859; a [Resolution from November 2, 1865](#); and [Article 8 of the City Charter of 1870](#) for a detailed description of duties.) Today, the Office of the City Engineer is no longer in existence. In 1951, the City approved a new Charter and reorganized city departments, in which the Public Works Department absorbed many of the duties formerly performed by the Office of the City Engineer ([Article V, Section 61](#)).

SCOPE AND CONTENT:

This finding aid provides a page-by-page description of Survey Book 3, with links to digital images of each page. Survey Book 3 is one printed and bound volume of material held within the overarching City Engineer Collection. Survey Book 3 contains 553 pages of handwritten property descriptions and sketches made by professional survey engineers for individuals residing in the City of San Antonio between 1883 and 1890. These surveys also feature railroads with the railroad company names, R.R. The surveys were made by multiple surveyors employed by the City, most notably Gustav Freisleben, who was City Engineer from 1856-1870, and then again from 1872-1877; and C.P. Matlack, who served as City Engineer from 1883-1887. Most of the surveys were made upon the occasion of sale or transfer of property, in order to assess the boundaries and value of the property. The properties surveyed include those of notable San Antonio individuals and families, including George W. Brackenridge, Edward Steves, Adams and Wickes, the Maverick family, the Kampmann family, and the Dignowity family.

RELATED MATERIAL:
