Strategic Design Plan

Plan Recommendations

1. Sustainable Design Interventions
2. Build a local coalition of stakeholders, under the direction of the COSA Department of Planning and Community Development, as a working group to oversee the implementation of this plan.
3. Create a Fredericksburg Road Corridor Design Overlay District the entire length of the corridor study area
4. Work with COSA's plans to explore alternatives to the proposed street sections for this corridor both interim and long-term
5. Adopt the Guidelines and Standards developed for this corridor as a result of this effort.
6. Create a demonstration project for street trees and pedestrian-scaled street lighting in a designated location(s) in the corridor.
7. Explore with COSA Transportation and Capital Improvements Department the pedestrian crossing configuration alternatives including locations for those outlined in this plan.
8. Design interventions suggested by this plan should be included in the 5-year Action Plan of the SA Tomorrow MTP.
