## Representative Comments/Issues/Ideas

### Safety

- No lane dividers on Fred Rd & Balcones Heights Ave. De Chantel Street & Fred needs canal to be removed or fixed, cannot make right turn red onto Fred Rd.
- Thrift shop on Fred & Babcock is eye sore with furniture all over the street.
- Spanish Trail is not being maintained.
- Pedestrian crossing-especially at bus stops. Street is too wide for easy crossing. Traffic goes too fast for bike traffic

### Landscape/Streetscape

- Entire corridor-no green spots-all cement. Public art at park.
- Medians (planters)-public art. Median with greenery would be good. Lower the speed limit. Public art is needed.
- Shade trees needed along corridor. Very hot and non-walkable
- Area along Spanish Trail Park is bleak with no live trees or shade of any kind. Plant trees within the water basins

### Sidewalks

- Needed all down Fred Road to Babcock to Balcones Heights
- All of Fred Rd needs a side walk that is continuous ribbon and the approaches to Fred also need to be addressed.
- Sidewalks connected to Martinez Creek
- No bike lanes on Fred Road and also with in the streets in neighborhood

### Lighting

- Agreement that whole street has minimal lighting.
- The Fred Street-looks sad without proper lighting
- The entire corridor would benefit from a systematic combinations of lighting focused on pedestrians-as well as vehicles
