Coronavirus Disease 2019 (COVID-19) Reduce Your Risk

According to the Centers for Disease Control and Prevention (CDC), the risk of COVID-19 to the American public is LOW. However, you can help prevent the spread of respiratory illnesses with these actions.

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Avoid touching your eyes, nose and mouth with unwashed hands.
- If you feel sick, stay home and please contact your healthcare provider.
