

SAIRS is for YOU, SAIRS is for YOUR PATIENTS and SAIRS is for a healthier San Antonio!

Did you know that San Antonio has its very own immunization registry?

What is SAIRS?

- The San Antonio Immunization Registry is a confidential, population-based, computerized information system that collects and disseminates consolidated immunization information for residents of ALL ages.
- SAIRS has been operated by Metro Health since 1980.
- It holds over **1.3 million records** and receives up-to-date information from over 300 local private practices, public health agencies, community health clinics, hospitals, pharmacies, and schools.

How does it work?

- SAIRS can be accessed anywhere through the internet.
- Enrolled providers can retrieve and input immunization information onto their patient's official records 24/7.
- SAIRS collects information through the provider directly entering the information in the system and through an electronic interface that is set up between the registry and the provider's certified electronic health record (EHR) system.
- Free staff training is provided!

How can I get access?

The enrollment process is easy, fast, and FREE!

Step 1: Complete and submit one [SAIRS Facility Enrollment Form](#) for each clinic location.

Step 2: Complete and submit one [SAIRS Security and Confidentiality Agreement](#) (Page 2 Only) for each staff member who needs access to SAIRS.

All forms and additional instructions are available at:
