What is a **Smart City**?

A Smart City uses **data** and **technology** to improve the quality of life for residents.
Why Should We Be a Smart City?

- Improve quality of life
- Manage population growth
- Access to information
- Improve citizen safety
- More responsive services
Components of a Smart City

1. Collect information
2. Communicate
3. Analyze
Predictive Analytics - Homelessness
Drones
LED Streetlights
Solar Benches
Wi-Fi in the Parks
Community Kiosks
Mobile Apps
Illegal Dumping Cameras
National Conversation
