Pets In Need Placement - Dog

This report is intended for currently approved rescue partners and fosters. If you are an interested adopter please visit our website at

<https://www.sanantonio.gov/Animal-Care/What-We-Do-Services/Adopt/Pet-Search/Information> for more information on adopting.

These pets are currently on campus and are in need of placement.

DOG

<u>Animal ID.</u>	<u>DueOut Date</u>	<u>Kennel No</u>
A584557	9/25/2020	ADMIN1

(M) 5 MTHS, TAN, LABRADOR RETR DOG

<u>Heartworm Test</u>	<u>Heartworm Smear</u>
-----------------------	------------------------

Trainer Evaluation Notes:

Staff Notes: Very happy, friendly puppy. He is treat motivated and can't wait to get out and play!

<u>Animal ID.</u>	<u>DueOut Date</u>	<u>Kennel No</u>
A585513	10/12/2020	RESCUE OFC

(F) 4 YRS, BR BRINDLE / GRAY, AMERICAN STAFF / BLEND DOG

<u>Heartworm Test</u>	<u>Heartworm Smear</u>
POS	NEG

Trainer Evaluation Notes:

PLAY GROUP: This cute girl has earned her name. She is so sweet and friendly with people. She met and interacted with both males and females and did well with all that she engaged with. She is tolerant, but does have a no-nonsense mentality about her. She corrects obnoxious behavior well and seems to want to keep the peace in the group. Overall, she is a great girl who deserves all the love.

<u>Animal ID.</u>	<u>DueOut Date</u>	<u>Kennel No</u>	
A584567	9/29/2020	S2201	

I have an ACS FOSTER hold!

(N) 2 YRS, BROWN / WHITE, AMERICAN STAFF / BLEND DOG

<u>Heartworm Test</u>	<u>Heartworm Smear</u>
POS	NEG

Trainer Evaluation Notes:

PLAY GROUP: This pup was a bit nervous when first brought over to play group. He was rather tense when initially greeting the other dogs, but after a few minutes, he began to lighten up and was more at ease around the other dogs. He seemed to be a bit interested in play and was tolerant of other dog's obnoxious behavior. He also took corrections well when he was being obnoxious.

Animal ID. DueOut Date Kennel No

A585867 **10/16/2020** **S3002**

(M) 3 YRS, BROWN / WHITE, LABRADOR RETR / BLEND DOG

Heartworm Test Heartworm Smear
NEG NEG

Trainer Evaluation Notes:

PLAY GROUP: This happy boy is friendly with both people and dogs. He can come across as a bit obnoxious towards other dogs, but takes corrections well. He seems to want to play, but expressed this desire through humping. He did better the longer he was out in group and didn't try to hump every dog that came in. He did well with both male and female dogs.

NEG NEG

Trainer Evaluation Notes:

PLAY GROUP: Friendly in the kennel. Easy to leash up and walk out. Was not reactive towards other dogs when walking past kennel, however, does get vocal when other dogs walk past him while he is in kennel. Meets well at fence and on/off leash with females. Did get tense when meeting another male and did vocalize. Was able to be redirected. Easy going and enjoys being around the group. Enjoys being around people and will seek and accept affection. Recommend meet and greet with male dogs.

(F) 2 YRS, BR BRINDLE / WHITE, BULL TERRIER / AMERICAN STAFF DOG

Heartworm Test Heartworm Smear
 NEG POS

Trainer Evaluation Notes:

PLAY GROUP: This pup was a little timid in the kennel, but not difficult to leash up and walk out. Once in playgroup, she did well meeting and interacting with the dogs, but grew anxious about being outside. She searched for weaknesses in the perimeter and even began digging at a low spot to try to get out. Due to this behavior, she did not stay in group long as we did not want her escaping and/or influencing other dogs to follow suit.

Trainer Evaluation Notes:

PLAY GROUP: Happy and friendly in the kennel. Easy to leash up and was not reactive towards other dogs when walking by in kennel. Decent on leash. Meets well at fence and on/off leash with both m&f. Enjoyed spending time with other dogs and was part of welcoming committee. Very interested in sniffing other dogs and could be a bit much for a dog that is very timid but he means well. Enjoys being around people and will seek and accept affection. Good boy

Staff Notes: Happy and friendly in the kennel. Easy to leash up and was not reactive towards other dogs when walking by in kennel. Decent on leash. Meets well at fence and on/off leash with both male & females . Enjoyed spending time with other dogs and was part of welcoming committee. Very interested in sniffing other dogs and could be a bit much for a dog that is very timid but he means well. Enjoys being around people and will seek and accept affection. Good boy

Trainer Evaluation Notes:

PLAY GROUP: Happy and friendly in the kennel. Easy to leash up and eager to go outside. Was not reactive towards other dogs when walking past in kennels. Walks nicely on leash and seems to have had some sort of training as she is easily redirected. Meets well at fence and on/off leash with both m&f. Enjoys greeting other dogs and is respectful and tolerant. Enjoys spending time with people and will seek and accept affection. goofy girl.

Staff Notes: Baby girl Blair is still very much a goofy puppy at heart. Don't let that fool you though, she is a well behaved lady but she enjoys a silly play session from time to time. Blair came in with what appeared to be her pup and that pup was quickly adopted. Now that her silly little baby has found a home, it's time to focus on finding Blair's home. She walks well on leash, sits for treats, and is up for cuddles whenever you are!

Trainer Evaluation Notes:

PLAY GROUP: This pup is freaked out by his environment and isnt sure about those in it. He was timid and hesitant in the kennel, but allowed me to leash him and he walked outside. He was timid and unsure when first meeting new dogs but with a bit of time, he began opening up and was more accepting of the other dogs. He seems to prefer the company of calmer dogs.

Trainer Evaluation Notes:

PLAY GROUP: This pup is a bit timid, but not terribly. He would retreat when approached for a short bit, then would walk up and allow himself to be pet. He was tolerant of other dogs but chose to keep to himself.

Trainer Evaluation Notes:

PLAY GROUP: This pup was happy to see and interact with people. Once he got to the yard he seemed nervous around the other dogs. We had him meet the dogs in group while someone was loosely holding onto his leash and he was nervous and avoiding. He never really gave us the signals we needed to feel comfortable letting him free roam in play group so we decided to put him back before he did something to be triggered or trigger another dog. Once we got him back in the catch pen, he began to growl and react towards the dogs that he had just met in the play yard.

Trainer Evaluation Notes:

PLAY GROUP: This pretty girl seems timid and sensitive. She was tolerant, though uncomfortable around other dogs. She corrected well when a dog was too invasive. She appeared to be in heat, so that likely had something to do with her reactions.

Heartworm Test Heartworm Smear

Trainer Evaluation Notes:

PLAY GROUP: This pretty girl is pretty freaked out by her environment. She displayed distance-seeking behaviors when I went to leash her up, but after a few minutes I was able to get her to walk her head through the loop of the slip lead. I pet her for a couple seconds at a time, until she gave the "please stop" look. She met and interacted with a socially savvy neutered male dog and seemed to do fine. She got very uncomfortable and displayed distance seeking behaviors when a large group of dogs approached her through the fence. This pup needs a patient and understand person to give her the time and space to decompress and become her true self.

Trainer Evaluation Notes:

PLAY GROUP: Timid in the kennel. Had to be carried out. Timid when meeting at fence and on/off leash. Tolerant and signals well. Preferred to keep to self but did allow dogs to come nearby. Does not like walking on leash but did walk back to kennel and allowed affection back in kennel. Needs time to decompress.
