Pets Pre-Euth - Dog

This report is intended for currently approved rescue partners and fosters. If you are an interested adopter please visit our website at

<https://www.sanantonio.gov/Animal-Care/What-We-Do-Services/Adopt/Pet-Search/Information> for more information on adopting.

These pets are currently on campus and their release date is either tomorrow or have already passed.

DOG

Animal ID. DueOut Date Kennel No
A584557 **9/25/2020** **ADMIN1**

(M) 5 MTHS, TAN, LABRADOR RETR DOG

Heartworm Test Heartworm Smear

Staff Notes: Very happy, friendly puppy. He is treat motivated and can't wait to get out and play!

Animal ID. DueOut Date Kennel No
A585513 **10/12/2020** **RESCUE OFC**

(F) 4 YRS, BR BRINDLE / GRAY, AMERICAN STAFF / BLEND DOG

Heartworm Test Heartworm Smear
POS NEG

Trainer Evaluation Notes: **PLAY GROUP:** This cute girl has earned her name. She is so sweet and friendly with people. She met and interacted with both males and females and did well with all that she engaged with. She is tolerant, but does have a no-nonsense mentality about her. She corrects obnoxious behavior well and seems to want to keep the peace in the group. Overall, she is a great girl who deserves all the love.

Animal ID. DueOut Date Kennel No
A585665 **10/16/2020** **S3001**

(M) 2 YRS, BROWN / WHITE, RETRIEVER / BLEND DOG

Heartworm Test Heartworm Smear

Trainer Evaluation Notes: **PLAY GROUP:** This pup was timid in the kennels and did not like having a leash on him. He would bite at the leash if there was any pressure, but wasn't frantic about it. He seemed to be okay with me petting him and would even lick my hand. After some time of getting him to walk in the direction I wanted him to go without having much pressure on the leash, he finally went to the play yard. He did okay at first, though he was a bit nervous. Then after a few minutes he began to confront the other dogs in the group by posturing and growling. He seems like a sweet boy with people, but would likely need to have a slow introduction with other potential fur siblings.

Animal ID. DueOut Date Kennel No
A585867 **10/16/2020** **S3002**

(M) 3 YRS, BROWN / WHITE, LABRADOR RETR / BLEND DOG

Heartworm Test Heartworm Smear
 NEG NEG

Trainer Evaluation Notes: **PLAY GROUP:** This happy boy is friendly with both people and dogs. He can come across as a bit obnoxious towards other dogs, but takes corrections well. He seems to want to play, but expressed this desire through humping. He did better the longer he was out in group and didn't try to hump every dog that came in. He did well with both male and female dogs.

Staff Notes: Chubbs is such a sweet, gentle, loving boy. He is so happy to go on a walk, sniff around the yard, or just cuddle up to his person. This handsome guy is looking for a home who will look past his scars and see his loving personality. Chubbs did very well on leash and sat for his treats which he nibbled out of my hands so gently.

(M) 4 YRS, BR BRINDLE, AMERICAN STAFF / BLEND DOG

Heartworm Test Heartworm Smear
 NEG NEG

Trainer Evaluation Notes: **PLAY GROUP:** Sweet and friendly in the kennel. Easy to leash up and walks out nicely. Was not reactive towards other dogs when walking past kennel. Walks decently on leash but could use some training. Meets well at fence with both m&f and was exciting to meet other dogs. Has deep wounds on his neck so only did fence greeting. Seems like a friendly boy.

Trainer Evaluation Notes: **PLAY GROUP:** Friendly in the kennel. Easy to leash up and walk out. Was not reactive towards other dogs when walking past kennel, however, does get vocal when other dogs walk past him while he is in kennel. Meets well at fence and on/off leash with females. Did get tense when meeting another male and did vocalize. Was able to be redirected. Easy going and enjoys being around the group. Enjoys being around people and will seek and accept affection. Recommend meet and greet with male dogs.

(M) 2 YRS, BLACK / WHITE, LABRADOR RETR / BLEND DOG

Heartworm Test Heartworm Smear
NEG NEG

Trainer Evaluation Notes: **ROUNDS:** This handsome pup is a lot of dog. He was happy to be greeted and leave the kennel, but was reactive towards another dog while walking past him in the kennel. I had him meet a socially savvy and friendly neutered male dog and he was a bit tense meeting him through the fence, but not reactive. We had him meet off leash and they did well. They sniffed and then went their own ways. After a couple of minutes, this pup tried to initiate play (rather rudely) with the neutered male and took corrects from the neutered male rather well. This pup could benefit from some manners and would likely to well with tolerant, friendly dogs that can help show him the ropes after a proper introduction.

Heartworm Test Heartworm Smear
 NEG POS

Trainer Evaluation Notes: **PLAY GROUP:** This pup was a little timid in the kennel, but not difficult to leash up and walk out. Once in playgroup, she did well meeting and interacting with the dogs, but grew anxious about being outside. She searched for weaknesses in the perimeter and even began digging at a low spot to try to get out. Due to this behavior, she did not stay in group long as we did not want her escaping and/or influencing other dogs to follow suit.

Heartworm Test Heartworm Smear
 POS POS

Trainer Evaluation Notes: **PLAY GROUP:** Happy and friendly in the kennel. Easy to leash up and walk out. Was not reactive towards other dogs when walking out of kennel, however, is vocal when other dogs walk past his kennel. Walks nice on leash. Confrontational when meeting at fence with both m&f. Recommend meet and greet but would probably do better in only dog household. Does well with people.

(M) 2 YRS, WHITE, GERM SHEPHERD / BLEND DOG

Heartworm Test Heartworm Smear
 NEG NEG

Trainer Evaluation Notes: **PLAY GROUP:** Very excited in the kennel. Easy to leash up and walk out. Was not reactive towards other dogs when walking out of kennel. Decent on leash and seems trainable. Meets well at fence and on/off leash with both m&f. Respectful and tolerant. Socially savy. Will try to initiate play and matches play style. Did get a bit tense when another large male entered play yard. Does well with people. Would benefit from an active family.

Staff Notes: 40.2#

Quiet and reserved, but very receptive to affection. His front legs are showing signs of nerve damage, but front right is now showing signs of healing and bearing weight. If other front leg doesn't progress best case would be to amputate and you will have a 3 legged dogs. Friendly dog.
