Trainer Evaluation Notes: **PLAY GROUP:** This cute girl has earned her name. She is so sweet and friendly with people. She met and interacted with both males and females and did well with all that she engaged with. She is tolerant, but does have a no-nonsense mentality about her. She corrects obnoxious behavior well and seems to want to keep the peace in the group. Overall, she is a great girl who deserves all the love.

Trainer Evaluation Notes: **PLAY GROUP:** Sweet and friendly in the kennel. Easy to leash up and walks out nicely. Was not reactive towards other dogs when walking past kennel. Walks decently on leash but could use some training. Meets well at fence with both m&f and was exciting to meet other dogs. Has deep wounds on his neck so only did fence greeting. Seems like a friendly boy.

Trainer Evaluation Notes: **PLAY GROUP:** Happy and friendly in the kennel. Easy to leash up and walk out. Was not reactive towards other dogs when walking out of kennel, however, is vocal when other dogs walk past his kennel. Walks nice on leash. Confrontational when meeting at fence with both m&f. Recommend meet and greet but would probably do better in only dog household. Does well with people.

Staff Notes: Blue is a handsome little guy who might weigh in at 55lbs but only reaches your knees! He is a well behaved gentleman who does well on leash, sits when asked, and loves to cuddle up with you! Blue does enjoy a good walk as well so could be a very versatile boy who would love some weekend hikes and weekday snuggles! His previous owner stated he was an indoor dog and loves kids!
